| Day | : | Monday |
| Venue | : | Campus Premises, TIAS |
| Event Incharge | : | Dr.Varun Kumar, Associate Professor, MBA |
| Student Coordinator | : | Ms.Bhawna Gera, MBA |

Society is an integral part of the surrounding Environment and the solution to many environmental problems lies in our attitude towards environment. The best way to bring about a change in this attitude in society is through youth. Here comes the role of Eco Club formulated at our Institute, which plays a very important role in creating environmental awareness amongst the future generations.

The Eco Club intends to achieve its following objective;

1. To create the awareness through campaigns on Anti-Fire Cracker and other Environment issues
2. To create the awareness that air and noise pollution affects the health of all living beings.
3. To appraise about the Hazardous consequences of bursting crackers.
4. To create the awareness about Environmental Health Effects -Hazardous & Toxic Nature of Ingredients Used in Firecrackers.

(Dr.Varun Kumar, In charge Eco Club briefing the students about the campaign.

Diwali is a festival of lights celebrated to dispel darkness and bask in the warmth of the live of our near and dear ones. But with the anomalies happening in every phase of life our Diwali has also transformed into a festival of smoke, ear piercing sound which leads to Pandora's Box of diseases, pollution and chaos. To fight these problems and spreading awareness about the same, Tecnia Eco Club spearheads the campaign on "**NO USE OF FIRECRACKERS**" through Posters involving the students of Tecnia Institute of Advanced Studies, on 05/11/2018 at: 11:00 AM in Institute Campus and spreading the message of a health impacts of fire crackers and to make people aware of the hazardous consequences of fire crackers.

Few glimpses of Campaign

Learning Outcome:

- Awareness through campaigns on Anti-Fire Cracker and other Environment issues
- Awareness that air and noise pollution affects the health of all living beings.
- Appraised about the Hazardous consequences of bursting crackers.
- Awareness about Environmental Health Effects -Hazardous & Toxic Nature of Ingredients Used in Firecrackers.
- Developed eco-friendly attitude amongst various sections of the society.

TIAS Eco Club has a great vision ahead and its prime focus is on how to keep the environment free from pollution and sustainable use of natural resources.
