**Students Visit in (Ashtavakra Institute of Rehabilitation Science and Research)  
To Sensitize the Special Capabilities Students**

**Report:**

MCA students have visited Ashtavakra Institute of Rehabilitation Science and Research on 14<sup>th</sup> August 2018 for celebration of Independence Day. The main objective behind this visit was to sensitize the students of MCA program towards individuals with special capabilities. During the celebration chairman Tecnia Group of Institution's Dr. Ram Kailash Gupta address to all students'. He said on the occasion that special capable (Divyang's) students should be brave

and face all the challenges with courage. He interacted with special capable students and gave his blessing's and wishes of all students.

MCA students interacted with them and enjoyed various cultural activities performed by the students of Ashtavakra Institute of Rehabilitation Science and Research. The students were very happy after interacting with the MCA students. Those Students participated in the programme said such type of programme is very helpful to understand people of different needs. On that day Divyang showcased their manufactured items in front of MCA TIAS students and 25 Divyang students performed different culture programmes so our students motivated from special capabilities students and these students were very happy to meet MCA students.

We would also like to thank Dr. Namita Mishra, Head students welfare for arranging this visit with the special capabilities students and scheduling a convenient date and time for the student. We would also like to thank our Director, Dr. Ajay Kumar for his necessary and timely support to make this celebration visit a success. Lastly, we express our gratitude to Dr.Vishal Khatri, Head, and MCA department.

Dr.Ramkailash Gupta Address to Students

TIAS MCA -Students Interact with Special Capabilities

**Learning Outcome:**

The students are able to:

- 1) MCA students have learnt & motivated from special capabilities students' performance of cultural as well as their skills to make products .MCA students were encouraged to be the entrepreneur in the field of computer & software.
- 2) Students get motivated and encouraged after seen the products manufactured by special capabilities students.

Convener  
Dr Jitender Rai
