Report on National Anti-Leprosy Day

EVENT	: National Anti-Leprosy Day
Date	: 30th January 2019
Time	: 11:30 AM
Venue	: P.G. Building, Tecnia Institute of Advanced Studies
Participation	: Students of MBA, BBA, BJMC, MCA
Convener	: Dr. Anuranjan Misra, NSS Programme Officer, TIAS
Faculty Coordinator	: Dr. Anuranjan Misra

Learning Objective:

1. To aware students about the disease like Leprosy.
2. The day is observed every year on January 30 in the memory of Mahatma Gandhi who attained martyrdom on this day in 1948, to remember his selfless efforts and care for the people affected with Leprosy.
3. The thrust of this campaign is to promote community participation in diagnosis and treatment of leprosy in its early stages.
4. Faculty, Staff along with students comes together whole heartedly to publicize the awareness about Leprosy.
5. The aim of introducing this event is to pay tribute to the great man Mahatma Gandhi Ji, on his death anniversary by remembering his extraordinary works for the country. He really worked hard for the freedom of India.

Tecnia Institute of Advanced Studies along with student, faculty and staff members organised Anti-Leprosy Day and pay tribute and honour to Mahatma Gandhi Ji. On this day our deepest tributes to the Mahatma Gandhi Ji (Nation Father) who have lost his life by bringing us peace.

World Leprosy Day creates awareness that leprosy is in fact curable. This day is meant to help people living with the disease to understand that it is in fact a curable disease and to know that other people care about them. Though the disease has a cure, there are many people living with the disease. Leprosy holds the stigma that it is like HIV/AIDS which is why World Leprosy

Day was developed to educate people and remove or weaken the stigma. Typically leprosy is associated with being highly contagious and has disfigurement properties. Once the diagnosis is made a person suffering from leprosy becomes a social pariah.

The Martyrdom Day of the great person Gandhi Ji is celebrated every year on 30th January as the Anti-Leprosy Day all over India in order to re-memorize his selfless efforts and care for the people affected by the infectious disease leprosy (also known as Hansen's disease). It is celebrated to understand the real need to fight against leprosy. Anti-Leprosy Day campaign is celebrated in school premises by showing the presentation as well as a movie to the students to make them aware of this much infectious disease, Leprosy.

Anyone can be affected with this disease, so the day is celebrated to make people aware of the scientific reasons of leprosy as well as its medical cures. It would be celebrated on the same day, 30th of January, in the year 2014 in order to focus attention on the disease and their awareness about this air-borne disease. The day is also celebrated in the memory of Mahatma Gandhi who had tried very much for the eradication of leprosy. Several programmes are organized on this day all across India to share the message with people to fight against leprosy and let them know that the disease is completely curable. It is celebrated to pay homage to Mahatma Gandhi Ji who fought for the freedom, welfare and progress of India and sacrificed his life.

Mahatma Gandhi (Bapu) was assassinated in the year 1948 before the sunset during evening prayers. He was a great freedom fighter of India and counted among the greatest of the lakhs and lakhs of martyrs. He did a very hard work throughout his life for the independence, welfare and development of India. 30th of January is the martyr day of Mahatma Gandhi which was declared by the Government of India as the Martyrs' Day and Anti-Leprosy Day. Since then, 30th of January is celebrated as the Martyrs' Day every year to pay tribute to Mahatma Gandhi. January 30 of the year 1948 was the saddest day for the country which has become the most poignant day in Indian history.

Bapu had started working on the mission for setting up harmony, peace and brotherhood among the people of India but, he was killed while working on this mission.

The programme was conducted in class rooms by their respective faculty members and all the staff members also participated in the classroom.

Learning Outcome

- All Students, Faculty and Staff members have given tribute and respect to National Leader.
- All Students, Faculty and Staff members have remember the work done by Gandhi Ji for the Unity, Integrity and security of the nation.
