A CM becomes PM

A Chief Minister becomes a Prime Minister of a country. It is first time that a state head becomes a country head. He birth was in independent India i.e. in 1950. He has fought elections for first time for Member of Parliament (MP) and he becomes Prime Minister (PM). He is Narendra Damodar Das Modi (NaMo)....

Bhutan; Abdulla Yameen Abdul Gayoom, Maldives; Shirin Choudhary, Bangladesh Speaker.

The 63-year-old Modi, neatly attired in a beige Nehru jacket, was sworn in by President Pranab Mukherjee 10 days after leading the National Democratic Alliance to a landslide win in the world's biggest election.

*Let us together dream of a strong, developed and inclusive India...
Narendra Modi, Prime Minister*

Narendra Modi kept his date with destiny in a glittering event in an auspicious evening on 26th May when he was sworn in as the 15th Prime Minister of India. It was the first time

when this type of ceremony becomes grand with the presence of the head of other countries. They were PM, Pakistan Nawaz Sharif; Navin Ramgoolam, Mauritius PM; Afghan President Hamid Karzai, Nepal PM Sushil Koirala, Srilankan President Sh. Mahendra Rajapaksa; Tshering Tobgay,

He leads a team of 45 ministers 23 of them in the cabinet rank which is distinctly leaner than the outgoing UPA ministry. It's a team that bears his personal stamp, with many of the ministers owing him their position, and reflects his resolve to form his ministry without being encumbered by

The President, Pranab Mukherjee, the Vice President, Mohd. Hamid Ansari and the Prime Minister, Narendra Modi with the Heads of SAARC countries after the Swearing-in Ceremony, at Rashtrapati Bhavan, in New Delhi

Cabinet Ministers

A CM becomes PM Continued from pg 1.....

reputations or stature.

“Together we will script a glorious future for India,” Modi said in a message on the PMO website that popped up minutes after he was sworn in. Forty-five other members of the council of ministers were also sworn in, led by Rajnath Singh, Sushma Swaraj once a Modi rival and Arun Jaitley.

The youngest minister will be 38-year-old Smriti Irani, who once served at a McDonald's outlet, and the oldest, 74-year-old Najma Heptulla, who is the only Muslim in the group.

The audience of more than 4,000 was packed into the magnificent forecourt of

Rashtrapati Bhavan, and included Pakistan prime minister Nawaz Sharif sitting next to outgoing PM Manmohan Singh Afghan President Hamid Karzai, Nepal PM Sushil Koirala, Congress president Sonia Gandhi, former presidents Abdul Kalam and Pratibha Patil and former PM Deve Gowda.

Congress vice-president Rahul Gandhi, blamed by some for the party's disastrous showing at the polls, found a place only in the second row. BJP patriarch LK Advani, effectively sidelined by Modi during the campaign, was seated among the foreign dignitaries.

The celebrity roster included actors Salman Khan and Dharmendra and cricketer Sunil Gavaskar. Spiritual guru Sri Sri Ravishankar had a front-row view. Two of India's richest men, the Ambani brothers, were both in attendance, as were other tycoons Shashi Ruia and Gautam Adani.

आई पी काउंसलिंग और भी बेहतर

गुरु गोबिंद सिंह इंद्रप्रस्थ विश्वविद्यालय ने छात्रों की सुविधा के लिए ऑनलाइन काउंसलिंग तीन बदलाव के साथ शुरू करने जा रहा है जिसमें एसएमएस सेवा और ओपन डेज़ भी शामिल हैं। इस साल छह कोर्स के लिए ऑनलाइन काउंसलिंग की जाएगी जबकि पिछले साल केवल दो कोर्स के लिए ऑनलाइन काउंसलिंग की गई थी।

विश्वविद्यालय के प्रवक्ता नलिनी रंजन का कहना है कि

इस बार हमने एसएमएस सेवा शुरू की है जिससे छात्रों को काउंसलिंग की तारीखों के बारे में अवगत कराया जाएगा।

उन्होंने ओपन डेज़ के बारे में चर्चा करते हुए कहा कि आईपी प्रशासन पंजीकरण के आखिरी दिन तक ओपन डेज़ कर आयोजन

कराने जा रहा है ताकि छात्रों की दुविधाओं को काउंसलिंग शुरू होने से पहले ही दूर किया जा सके। इसे 10 जून तक शाम चार से छह बजे तक आयोजित कराया जाएगा। साथ ही विश्वविद्यालय ने संबंधित कालेजों से अपने हिसाब से सीट भरने का अधिकार

छीन लिया है। अभी तक 90 फीसदी सीट काउंसलिंग से भरी जाती थी और बाकी 10 फीसदी भरने का अधिकार अभी तक कालेजों के पास था, लेकिन अब प्रबंधन कोटे के अलावा खाली सीटों को खुद नहीं भर पाएंगे।

इस बार हेल्पलाइन नंबर में भी इजाफा करते हुए इसकी संख्या को तीन से पांच किया जा रहा है। छात्र अपनी समस्याओं का निवारण ईमेल से भी कर सकते हैं। जिसके लिए छात्रों को ईमेल आईडी

ipuadmissions@gmail.com पर ईमेल करना होगा। जिस पर विशेषज्ञों की टीम सलाह देकर छात्रों की दुविधाओं को दूर करेगी।

Way Ahead of Delhi University

Don't get disappointed if you are not admitted into Delhi University colleges because this is not the final destination. There are other avenues of higher education for students beyond Delhi University. Admission in favorite college or enrolling in courses of choice not often gets frustrated. So many universities have started courses through regular or correspondence mode. Many universities are running various regular and part-time courses, by which students move directly into the world of education and employment.

Guru Gobind Singh Indra Prastha University

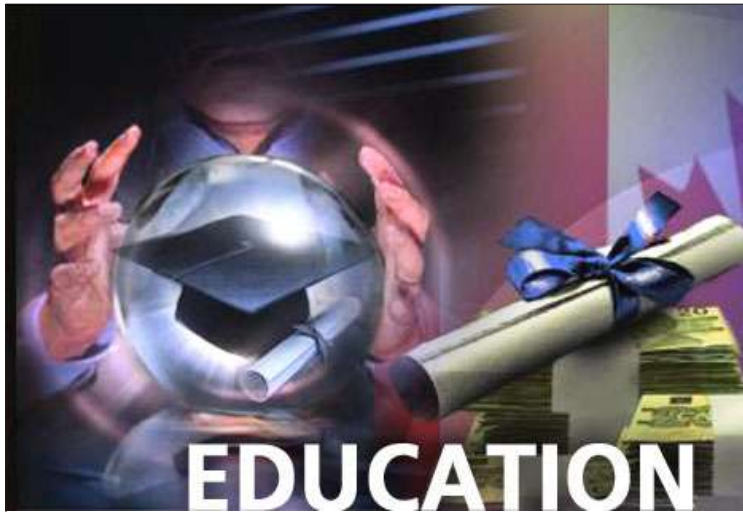

Guru Gobind Singh Indra Prastha University provides regular and professional courses which are capable for providing jobs to the students. The different courses available are at undergraduate, post graduate and doctorate level. There are 78 self financed privately managed institutes and 24 government institutions which are running professional courses like B.Tech., BBA, BALLB, MBA, MCA, MTech etc. The university has also started B.Com from this year. All the admissions through the entrance test called CET (common entrance test) and then through the process of counseling. The counseling held for the admission in the different colleges is in the month of July.

Delhi University SOL

School of Open Learning offered B.Com, BA Hons, English and Political Science are major honors courses. Students can enroll themselves by the second week of September with late fee. The classes are held every Sunday. Political Science, English, Hindi, Sanskrit etc. MA and Postgraduate courses are held in the program. The date of admission in MA is now over. Students will get admission through entrance test.

Jamia Millia Islamia University

Jamia Millia Islamia University, Arjun Singh Centre runs Distance and Open Learning through correspondence courses at the undergraduate and MA levels. There are many professional-level diploma courses like including computer information technology, Early Childhood Care and Education System, engineering, power generation engineering. Courses like MA English, Hindi, sociology, history, public administration, human resource management, political science, education and Postgraduate courses are also offered. Students wishing to study at home take admission can take advantage of education.

Student enrollment program can find out from the center. For teachers working in various schools 'distance mode' B.Ed courses are also available. The last date for applying in various courses is in the last week of August and September.

Wait for Part Time Courses

Add on degree courses in colleges away from the practice of course are now in full swing. Add on courses that teach vocational skills are so popular in ten years.

It has three public colleges and private educational institutions usually have variety. The first one is a soft skill, Personality development, English speaking, theater, effective communication, communication skills, including courses such as film appreciation and counseling. Other plainly professional courses, a student with theoretical - are training with on-hand. Typing, computers, photography, media, travel and tourism, Web Designing, Animation, nanotechnology, air ticketing and Psychological Assessment and Fair is of course the same. Language courses are under the third category. These courses are offered in English or foreign language.

Certificate and diploma in foreign language

Romans and the Germanic Studies Department of the University of Delhi run under the supervision of the Department of East Asian Studies and provide part-time certificate and diploma courses in foreign languages are run. German, Spanish, Italian, French and Russian in addition to Japanese, Korean and Chinese language courses in colleges are run by part-time. The criteria for admission must be at least 12th. Foreign Embassies in foreign language courses are run.

CA and CS

Become a chartered accountant, company secretary after XII, a student of commerce

or science can try for admission to the course. Admission procedures of both institutions have been given on the website.

IGNOU even better choice

Indira Gandhi National Open University IGNOU has a wide reach in every corner of the country through distance mode. Delhi University students can enroll till 31st July. Several courses like BSc Hons, BSc in Science Major in Physics, Chemistry, Math, Zoology and Botany, Bachelor of Arts in History, Hindi, Political Science, Sociology, Economics, Mathematics, Philosophy, Public Administration, English and Urdu. The 12th-compartment

student can enroll in graduate courses. In addition to courses in undergraduate level it has courses at post graduate (regular and professional) and doctorate level. You can also BCA and MCA course. Students are admitted to the January and July session.

Jamia Hamdard University, Delhi

Jamia University also offers many courses after XII for the courses are offered in distance education mode. These courses are generally out of universities. Students sit at home, BBA, BCA, BSc in Multimedia and Animation course, Diploma in Web Designing, Diploma course in three-D animation. The last date of application lies in July.

Kurukshetra, GJU Hissar and Maharshi Dayanand University

Here is a huge hit among Delhi students through distance learning. The exam center is in Delhi. Kurukshetra University offers undergraduate and post graduate courses through distance education. The admission process will continue until September-October. Similarly, the Maharshi Dayanand University, Rohtak Delhi shows the way to school students. These universities also provided home study materials.

The path of private universities

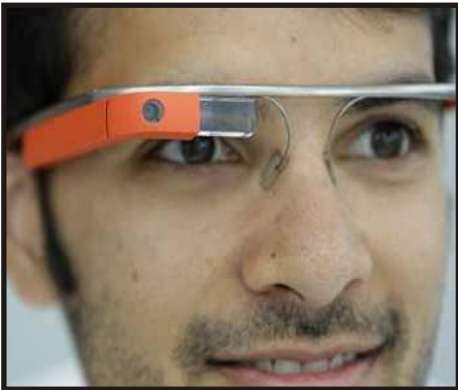

There are Graduate and Post Graduate University in Delhi and NCR in Conventional Management Science, Arts and Commerce courses. These institutions are equipped with superior resources. Just the right course and college students need to explore. Amity University, Shiv Nadar University, Sharda University, Lovely Professional University, Galgotia University are many private educational institutions in Ghaziabad, Noida and private universities in the major cities.

Gadgets of the month

Google Glass adaptation opens universe to the deaf

Scientists have developed a new system to

project the sign language narration onto several types of glasses - including Google Glass, opening a universe of opportunity for deaf people.

The project inspired by a visit to a planetarium by deaf students is personal for Tyler Foulger and a few other student researchers from Brigham Young University because they were born deaf.

"My favourite part of the project is conducting experiments with deaf children in the planetarium," Foulger said. They get to try on the glasses and watch a movie with an interpreter on the screen of the glasses. They're always thrilled and intrigued with what they've experienced. It makes me feel like what we are doing is worthwhile," he said.

One finding from the tests is that the signer should be displayed in the centre of one lens. That surprised the researchers, who assumed there would be a preference to have video displayed at the top, like the way Google Glass normally does it. Deaf participants preferred to look straight through the signer when they returned their focus to the planetarium show.

Is gaming the future of wearable technology?

Sony's president and CEO Kazuo Hirai seems to think so and also accepts that his company's vision is just one of many because no one currently offering smart watches or headsets is really certain if they're on the right track.

Speaking to PC World, Hirai painted a picture of the future where not just

wearables, but other consumer tech devices, from smart phones to TV converge to deliver a new overlapping consumer experience.

At the moment, with the exception of companies like Jawbone and Fitbit that are focused purely on health and well-being, most wearable technology creators are building devices that are an extension of the smart phone in terms of features -- whether it's Samsung's Gear 2 watch or Google's Glass. Sony itself already has a smart watch on sale that displays notifications and offers remote access to a handset's music library. However, it also has a dedicated gaming division in the PlayStation and its ever growing range of accessories that track motion, respond to voice commands or, in the case of Project Morpheus, offer Virtual Reality.

Hirai sees the sorts of cameras and sensors involved in these types of peripherals becoming elements of wearable technology devices, however he also admits that no one is sure, really, where the wearable technology market is heading. "It already is, perhaps, a very crowded market," he said. "I think the jury's still out on exactly what the right wearable consumer experience is... We have a vision of where we want to take it, but we don't know whether that's the right one. Nevertheless, despite this uncertainty, 2014 is expected to be a big year for wearable tech in general and the smart watch in particular. The first devices to use Google's Android Wear operating system, the Motorola Moto 360 smart watch and the LG G Watch are

both scheduled to launch this summer and are already creating a huge buzz.

Google Glass has just gone on sale in the US as a means of expanding and expediting the research and development needed to get the product finished and ready for consumer use.

New gadget promises to charge your phone twice

The Legion Meter safely ups the flow of power into a handset's battery and can cut charging times for both Apple and Android devices.

Two separate reports published this month both highlight that the number-one feature that consumers demand from a smartphone isn't screen size, or even image-taking quality, it's a long battery life.

Therefore it's with perfect timing that the Legion Meter has just appeared on Kickstarter.

It can't eke more juice out of an iPhone or Nexus 5, but what it can do is seriously accelerate recharging. Plug the phone's charging cable into one end of the device - which is pretty much the same size as a USB key - and plug the other end into a computer's USB port or into a power socket via an adaptor, and it will 'supercharge' the battery.

Its makers, PLX Devices, claim it can charge a battery up to 92 % faster and do so safely. The device even has a small OLED display that will show how the battery is behaving and how much juice it has in real world terms.

As a sweetener, the company was offering early-bird specials on Kickstarter for \$39, but is completely sold out. What's more, the gadget has charged past its initial funding target and by some length. PLX Devices had been looking for \$10,000 via crowd funding but has already raised more than \$211,255 and there are still over 20 days of the campaign remaining.

A domestic tournament in two countries but hit

First phase in UAE before 30th April and Second in India after 30th April

In 2014 Indian Premier League -7, first domestic tournament, is played in two different countries UAE and India. First 20 matches were played in different stadiums

i.e. Lok Sabha Elections. For the security reason the tournament is being played in two countries.

s XI Punjab topped the tally with 11 wins, Kolkata Knight Riders and Chennai Super Kings took second and third place respectively with 9 wins respectively

IPL 2014 Points Table on 26th May

Robin Uthappa of KKR is the highest

scorer with 613 runs in 14 matches with an average of 47.15 and strike rate of 137. Dwyane Smith of CSS made 535 of 14 matches with an average of 38 at the strike

This Month

May 18, 1804 - Napoleon Bonaparte became Emperor of France, snatching the crown from the hands of Pope Pius VII during the actual coronation ceremony, and then crowning himself.

May 24, 1844 - Telegraph inventor Samuel Morse sent the first official telegraph message, "What hath God wrought?" from the Capitol building in Washington, D. C., to Baltimore.

May 13, 1846 - At the request of President James K. Polk, Congress declared war on Mexico. The controversial struggle eventually cost the lives of 11,300 U.S. soldiers and resulted in the annexation of lands that became parts of Oklahoma, New Mexico, Arizona, Nevada, California, Utah and Colorado. The war ended in 1848 with the Treaty of Guadalupe Hidalgo.

May 9, 1862 - During the American Civil War, General David Hunter, Union commander of the Department of the South, issued orders freeing the slaves in South Carolina, Florida and Georgia. He did so without congressional or presidential approval. The orders were countermanded by President Abraham Lincoln ten days later.

Compilation: Dr. Vipul Partap

rate of 138. Glen Maxwell of KXIP made 533 of 13 matches with an average of 41 at the strike rate of 192.

In bowling Sunil Nariane of KKR and Bhuvneshwar Kumar of SRH took 20 wickets in 14 matches and shared first and second place respectively. Mohit Sharma of CSS took 18 wickets in 13 matches grabbed third place in best bowling list.

Glen Maxwell of KXIP has hit maximum number of sixes i.e. 35 also holds the record of 46 fours in 13 matches. Dwyane Smith of CSS hit 33 sixes and 42 fours in 13 matches. Yuvraj Singh of RCB hit 28 sixes and 20 fours in 13 matches where as David Warner of SRH hit 39 fours and 24 sixes in 14 matches.

Parthiv Patel of RCB took 12 (11 catches

and 1 stump) dismissals as wicket keeper. Wridhiman Saha of KXIP took 11 (8 catches and 3 stumps) dismissals. Dinesh Karthik of DD took 8 (6 catches and 2 stumps) dismissals.

Faf Du Plesis of CSK is the number one catcher in IPL 7 as he took 11 catches in 13 matches. Steve Smith of RR, David Millr of KXIP, Suresh Raina of CSK, Mitchell Starc of KXIP all took 9 catches and are at number two.

The highest total in the match was 418/10 in the match between KXIP and CSK at Cuttack in 40 overs. 416/9 was in the match between SRH & KXIP at Hyderabad in 38.4 overs. 411/8 was the total in the match between KXIP and CSK at Abu Dhabi in 38.5 overs.

Highest total in an innings 231/4 was made by KXIP against CSK at Cuttack. Next highest totals are also by KXIP against SRH

211/4 and CSK 206/4 at Hyderabad and Abu Dhabi.

Basics of Media

Narrow-Angle Lens - Gives a close-up view of an event relatively far away from the camera. Also called long-focal-length or telephoto lens.

Normal Lens - A lens or zoom lens position with a focal length that approximates the spatial relationships of normal vision.

Rack Focus - To change focus from one object or person closer to the camera to one farther away or vice versa.

Range Extender - An optical attachment to the zoom lens that extends its focal length. Also called extender.

Selective Focus - Emphasizing an object in a shallow depth of field through focus while keeping its foreground and/or background out of focus.

Servo Zoom Control - Zoom control that activates motor-driven mechanisms.

Slow Lens - A lens that permits a relatively small amount of light to pass through at its maximum aperture (relatively high *f*-stop number at its lowest setting). Can be used only in well-lighted areas.

Wide-Angle Lens - A short-focal-length lens that provides a broad vista of a scene.

Samsung looking to expand fingerprint scan

Samsung is planning to integrate fingerprint scanners into all of its smartphones and tablets and not just save the technology for flagship phone customers.

Speaking to the Wall Street Journal, the company's senior vice president, Rhee In-jong, confirmed that Samsung wants to add the extra layer of security to all of its mobile devices and that soon fingerprint scanning would be joined by iris scanning too.

In the build up to the launch of the company's current premium handset, the Galaxy S5, reports circulated that Samsung was going to integrate an iris scanner into the phone's camera. However, when it launched earlier this year, it did boast biometric security, although like with

Apple's latest phone, the iPhone 5S, it was via a fingerprint scanner.

And as the popularity of the feature grows, so will the range of phones that support it. Samsung hopes to bring fingerprint scanners to entry-level and high-end handsets alike. However, when it comes to iris scans, expect them to start appearing sooner rather than later as premium handset features.

Motorola launches Moto E

The first handset from the company since it was sold to Lenovo, the Moto E offers an excellent balance of performance and price and could be the ideal entry-level phone for a n y consumer anywhere in the world ready to dump their feature phone in

favor of their first smart handset.

Motorola has planned a series of launch events over the next 24 hours in different countries but at the first, in India on Tuesday morning, the company officially took the wraps off its third 'Moto' branded handset, the Moto E.

Like the Moto G and Moto X, the new phone has the same rounded corners, slightly curved backplate and will be available in a range of colors. It boasts a 4.3-inch display with a resolution of 540x960 pixels.

By saving money on things like onboard storage and processors, Motorola has been able to invest in other areas of the phone. It is encased in Gorilla Glass so it can

handle the knocks and scrapes of daily use and by lowering some performance parameters, battery life is also boosted.

The company claims a full day of real world use between recharges, something that feature phone owners -- who are going to make up the bulk of the phone's customers -- take for granted. Last but not least is the price. In India, the Moto E will cost just Rs. 6,999.

Winners V/s Losers

Part-34

The Winner is always part of the answer; the Loser is always part of the problem.

The Winner always has a program; the Loser always has an excuse.

The Winner says, "Let me do it for you"; the Loser says, "That's not my job."

The Winner sees an answer for every problem; the Loser sees a problem for every answer.

The Winner says, "It may be difficult but it is possible"; the Loser says, "It may be possible but it is too difficult."
