Invite

STUDENTS ATTENDING THE WEBINAR

SPEAKER 1: DR. RAJ KUMAR SINGH

DR. R.K SINGH is a Professor, Dean, HOD commerce.

Dr. Singh is a chairperson center for Entrepreneurship & skills development, school of management sciences Varanasi.

- Dr. Singh briefed us about the start-up.
- He also informed us about the interpersonal skills required for business as:

Mindset aspect will help you to minimize the importance of failure and rejection in your life. Additionally, being able to plan ahead and foresee potential problems (a key part of an entrepreneurial mindset) will help you to live a more organized, less stressful life.

Skills aspect help people start a business and manage a single branch of a business. But it doesn't stop there. Employers seek business candidates who possess high levels of emotional intelligence, communication skills, and organizational skills.

Practice aspect for your own area of expertise or business is an important part of making everything works smoothly and efficiently. Best practices can keep evolving as new and better solutions are found or evolve from better awareness, new technology, or simply different ways of looking at things.

- He further informed us about the how different startups have been advantaged and are in a boost during this period of pandemic.
- How one should think about the environment keeping in mind their business as certain things affect different individuals on the same platform keeping an eye on the basis of their business growth so that they can give an advantage to the society and make things grow by developing ideas as an entrepreneurial aspect.
 - Sulabh movement
 - Bharat abhiyan
 - Burning of parali effecting environment
 - Senior citizens orphan

SPEAKER 2: COL PROF. DR. MP SEN

- Dr. Sen informed us about the women entrepreneurs.

Women. Entrepreneurs means the women or a group of women who initiate, organize and operate a business enterprise. A woman entrepreneur is therefore a confident, creative and innovative woman. Desiring economic independence individually and simultaneously creating employment.

- Dr. Sen also asked that why do we think that social entrepreneur is important?

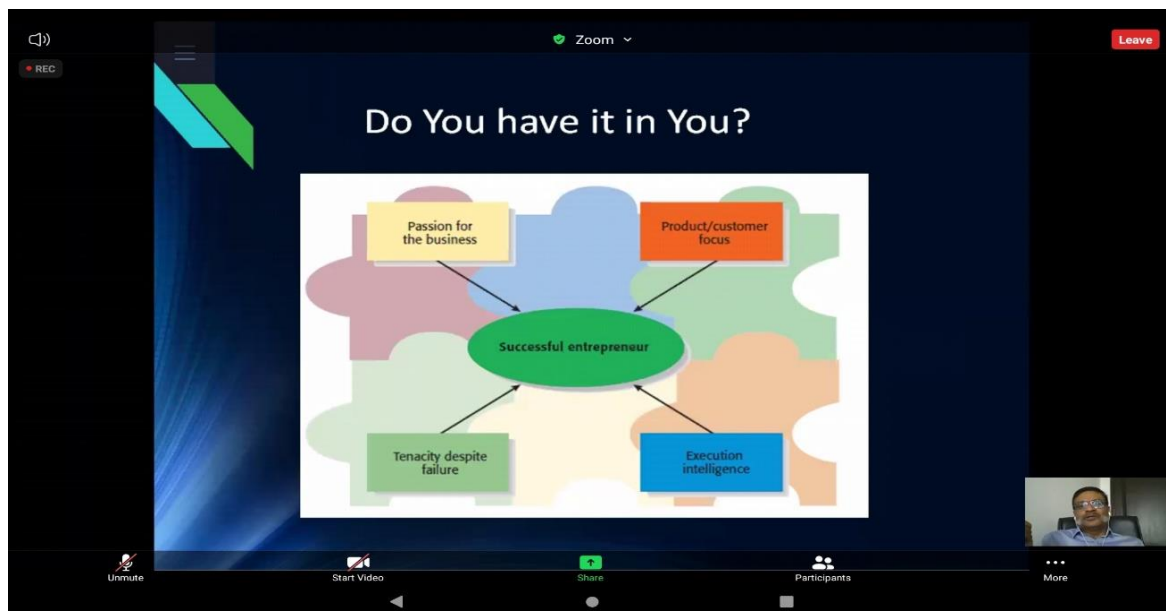

Social entrepreneurship is important because it provides a framework for businesses to find their own success in the pursuit of helping others. It's a constant source of motivation for employees, especially for Generation Y, which is increasingly skeptical about the traditional corporate work environment.

The social entrepreneur develops a mission and vision to bring in change in the society. They possess innate talent and qualities to understand and analyse the social problems. They are able to develop creative innovative ideas and strategies to help alleviate these problems from the society as a whole.

Speaker Elaborating about the Entrepreneurship

- Dr. Sen further added that what all qualities are required for becoming a successful entrepreneur:

Dr. Sen explaining the skills of an Entrepreneur

Self-Discipline

The first trait that all successful entrepreneurs must possess is self-discipline. Self-discipline is the single most important quality for success in life and business. If you can discipline yourself to do what you should do, whether you feel like it or not, your success is virtually guaranteed. Self-discipline requires self-mastery, self-control, self-responsibility, and self-direction.

Integrity

The second trait that all successful entrepreneurs must possess is integrity.

Perhaps the most valued and respected quality you can develop is a reputation for absolute integrity. Be perfectly honest in everything you do and in every transaction and activity. Never compromise your integrity. Remember that your word is your bond and your honor is everything when it comes to your business. All successful business is based on trust.

Persistence

The third trait that all successful entrepreneurs must possess is persistence. Persistence is the iron quality of character. Persistence is to the character of man as carbon is to steel. It is an indispensable quality that goes hand in hand with all great success in life.

A Clear Sense Of Direction

The fourth trait that all successful entrepreneurs must possess is a clear sense of direction. Because of the turbulence and rapid change in today's marketplace, most business owners have been reduced to operating day-by-day, almost like firefighters.

Decisive and Action Oriented

The final trait that all successful entrepreneurs must possess is being decisive and action-oriented. They must think and make decisions quickly. They discipline themselves to take action and to carry out the decisions they have made. They move fast and they get quick feedback from

their actions. If they find they have made a mistake, they quickly self-correct and try something else.

Some Skills set nurturing by the speaker for the participants

- He further moulded us about the how we can make less investment:

10 low-investment business ideas you can start on the side
Choosing a low-investment business idea

- Partner with a dropshipper
- Design and sell print-on-demand t-shirts
- Launch your own book
- Create digital products or courses
- Sell print-on-demand posters, prints, etc.
- Start a charitable business
- Sell a service
- Create an online fashion boutique
- Sell handmade goods
- Build an audience you can monetize

skills and knowledge.

Learning outcome

1. Participants have learnt about entrepreneurial skills.
2. Participants have learnt about the different modes of online business.

3. Participants have analyzed about the managerial skills.
4. Participants have also learnt more about the investing process.
