Learning Objectives:

- To develop a positive attitude among students towards orphanage kids.
- To provide awareness to the students regarding the objectives of such social institution.
- To develop an emotional attitude among the students for their active contribution to deprived children.

Report

Tecnia Institute of Advanced Studies organized a virtual visit to orphanage at Blind Development and Vocational Center. The Students from BBA, MBA, BCA, and BA(JMC) departments have participated and coordinated for the same to work for a social cause.

The idea of such a visit is to propagate awareness among students regarding the objectives of an Orphanage. An interactive session was organized from TIAS on the topic “**Conquer the Challenge of Change**” staff and students were made for the needy children residing in that social institution.

During the session the speaker motivated the students and ask them to prepare plan related to prospects ask them to keep themselves motivated as every individual have low points they are not alone, share your feelings with other individuals, whenever required ask for help and willing to accept, help others whenever possible, think big don't give up and work hard, not smart these are the perspectives which the speaker has shared with the students.

It is a life-changing experience as it evokes emotions and sentiments. The children of the Blind Development and Vocational Center were excited to meet us. Students from TIAS meet them with great enthusiasm and spent time interacting with them. They also met the caretakers of this.

Then the children have displayed their talent. They played harmonium, worked on laptop and read sundarkand path. There were huge smiles on their faces. It was a very satisfying experience for our students as they could bring smiles to children's faces. This virtual visit encouraged the students to do more for the needy and help them. The students from TIAS learned the values of caring and sharing for others. They realized that one must contribute and understand his/her responsibility towards society.

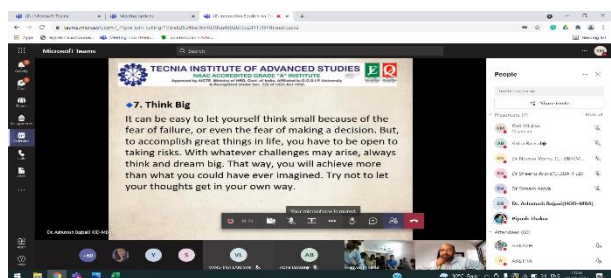

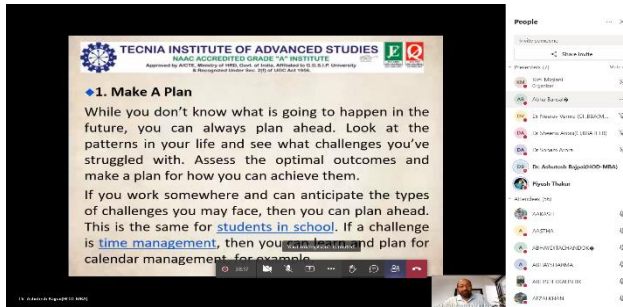

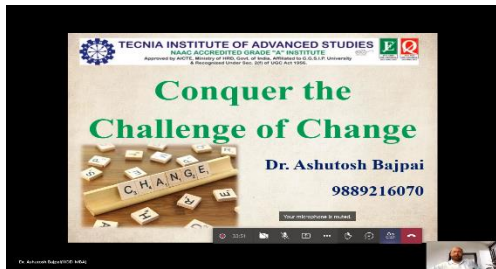

Later on, when we interacted with the staff, we got to know about the functioning of that social institution and how the orphan and blind kids were getting nurtured over there. And the students through this virtual visit to the orphanage got an emotional touch and awareness regarding such an institution.

At the end of session the vote of thanks was given by Dr. Sonam, In-charge, Student Welfare. She thanked the speaker and team for their support and timely presence. She also thanked Dr. Ajay Kumar, Director, TIAS for his support and confidence in her for giving the move ahead.

Learning Outcome:

1. Students have learnt about orphans, orphanages, and Blind Children.
2. Students have got knowledge about the objectives of such social institutions and their contribution towards the nation-building.
3. Students got developed an emotional attitude towards these deprived children.
