Director (TIAS) along with Faculty members and students initiated campaign on “Say No Use of Fire Crackers” during Diwali Mela

Director (TIAS) along with Faculty members and students initiated campaign on “Say No Use of Fire Crackers” during Diwali Mela

Report: Description in (min 250 to max 800 words)*

A Campaign was organized by Eco Club of Tecnia Institute of Advanced Studies, Rohini, Delhi on 19th October, 2019. TIAS organizes Anti- Fire- cracker campaign to control air and

	<p>noise pollution. The Eco- Club have played an important role in the Anti – Fire Campaign and the students make people aware about the hazardous effects of bursting crackers on Diwali.</p> <p>Air Pollution affects overall health of an individual. The pollution increased manifold due to bursting of crackers. The adverse effect of bursting cracker seems unending. Even the frequent exposure to loud noises during pregnancy may affect the mother’s womb as well.</p> <p>Crackers often contain elements like copper, cadmium, sulphur to produce vibrant colours once ignited. The harmful gases produced from the bursting of crackers, such as Nitrous Oxide, remains in the air for a long time if the city doesn't get enough rain or strong winds.</p> <p>Inhaling the fumes emitted by firecrackers increase the chances of asthma attack among patients. Heart patients and patients of chronic bronchitis and low immune system are at high risk too. The event disseminated information about the harmful effects of bursting fire crackers & also created awareness about the poor working conditions faced by the workers in the units manufacturing fire crackers.</p>
Recourse Person Profile	NA
