Awareness Program on Ozone Layer Depletion

EVENT: Awareness Program on Ozone Layer Depletion

Convener: Dr. Kirti Miglani

Participation: BBA

Date: 16th September 2020

Venue: Online Platform

Timing: 10:00 am onwards

No. of beneficiary: 66

TECNIA INSTITUTE OF ADVANCED STUDIES
 Approved by AICTE, Ministry of HRD, Govt. of India, Affiliated to GGSIP University
 Recognized Under Sec. 2(f) of UGC Act 1956
 INSTITUTIONAL AREA, MADHUBAN CHOWK, ROHINI, DELHI-110085
ECO CLUB

ABOUT E-Depletion of OZONE Layer
 The programme aims to create effective awareness in various levels (of society) to reduce the adverse impact on environment and health arising out of the polluting technologies used in recycling e-waste in the unorganized sector.

SAVE THE OZONE LAYER

Stratosphere
 Ozone Depletion
 Solar radiation
 Ozone Layer
 Troposphere
 CFCs, HCFCs, VOCs
 Harmful UV rays

Objectives

Goal

16-09-2020

In-Charge Kirti Miglani

India's Premier ISO 9001:2015, 14001:2015 Certified Institute. Rated as 'A' by Govt. NCT of Delhi, 'A++' Category - Best Business School by Business India, included in Top 100 B & IT Schools by reputed publications.

Awareness Program on Ozone Layer Depletion

OBJECTIVES OF THE EVENT:

- To help nature and Mother Earth to get its natural beauty and components back.
- To carry out awareness drive and sensitizing public at large on the harmful effect of depletion of ozone layer.
- Building the capacity of the health sector to better protect children through exposure reduction.
- Working with other sectors to implement policies and actions that reduce harmful exposures.
- Advancing specific research about ozone layer depletion.

REPORT

An Awareness Campaign on Ozone Layer Depletion was organized by Eco Club of Tecnia Institute of Advanced Studies, Rohini, Delhi on 16th September 2020. TIAS propagated Eco Club under the aegis of Department of Environment, Government of NCT of Delhi, has been dispensed accountable for edifying the overall Environmental Quality in Delhi NCR which has also been entrusted with the overall environmental assessment, monitoring, protection and awareness among the people of Delhi.

Institute's Eco Clubs plays an important role in creating environmental awareness amongst the future generation. It's a platform on which one gets the knowledge about environment. ECO CLUB works to contribute in improving environmental conditions. Tecnia Institute of Advanced Studies actively encourages students to promote correct usage of electronic gadgets. It is a medium through which students can reach out to influence, engage the community to promote green environmental behaviour. The club sensitizes the students to discover new environmental issues and the actions required to mitigate them.

The Awareness Campaign was initiated and students from different classes participated in raising awareness for Ozone layer Depletion. The ozone layer protects the Earth from harmful portion of sun rays thus, it helps to preserve it on planet Earth. 66 students of BBA department attended with full zeal. The session was to make the students aware about depletion of Ozone Layer, avoid buying and using aerosols and spray having CFC, prohibiting the usage of nitrous oxide, discourage driving of private vehicles, conduct regular inspection and maintenance of air conditioners in order to prevent and minimize refrigerant leakage. The main aim of this awareness drive is to sensitize public at large about the depletion of Ozone layer.

The Eco club functions under faculty in charge –Dr. Kirti Miglani, Assistant Professor- BBA along with a group of volunteers from students to take initiative and campaigns on the environmental issues and to take the appropriate actions like proper servicing of air conditioners in motor vehicles in order to improve the environment.

Eco Club provides an opportunity to help create awareness, build attitudes and enable

students to take up activities and sensitivity among individuals and social groups to the total environment and its allied problems; and to Impart knowledge to help individuals and social groups gain a variety of experiences in and acquire a basic understanding of the environment. Eco Club member spread the information among the students about promoting monitoring of exposures to ozone layer depletion.

In last Management Department, Dean Dr. Rashmi Gujrati encourage the students of BBA about the harmful impact of ozone layer depletion and encourage people to adapt healthy lifestyle.

Awareness Campaign on Ozone Layer Depletion

Learning outcome

- Students have learnt about :
- To encouraged for proper maintenance and preservation of environment.
 - Students were made aware to uplift the quality of the living environment through depletion of ozone layer depletion.
 - This event set an inspiring example for the coming generations to save environment .

Spreading Awareness amongst students regarding ban on Sharp Manja

OBJECTIVES OF THE EVENT:

- ❖ To carry out awareness drive and sensitizing public at large on the harmful impacts of Sharp Manja.
- ❖ To instil environmental and societal resilience in order to attain inclusive sustainable development.
- ❖ To inculcate the sense of proactive action, innovation and teamwork among students towards environment.

REPORT

F.12 (557)/Env/Notification/Manja/2017/2577-82 Dated: 31.12.2020

A Awareness Campaign was organized by Eco Club of Tecnia Institute of Advanced Studies, Rohini , Delhi on 18 January, 2021. TIAS propagated Eco Club under the aegis of Department of Environment, Government of NCT of Delhi, has been dispensed accountable for edifying the overall Environmental Quality in Delhi NCR which has also been entrusted with the overall environmental assessment, monitoring, protection and awareness among the people of Delhi; multi-facets methods is being espoused by the Department for Promotion, Conservation and Preservation of Environment.

Institute's Eco Clubs plays an important role in creating environmental awareness amongst the future generation. It's a platform on which one gets the knowledge about environment. ECO CLUB works to contribute in improving environmental conditions. Tecnia Institute of Advanced Studies actively encourages students and outsiders to ban on sharp manja.

Sharp Manja

“Sharp Manja”-A dangerous thread

Kite flying by using thread made out of plastic, nylon or similar such synthetic material including popularly known "Chinese thread/manja" or any other thread coated with glass/metallic components causes a lot of injury to human beings and birds which many a times turns out to be fatal. Apart from this, such kite flying threads being non-biodegradable causes harm to the environment. These also sometimes result in flash-over on the power lines and substations thereby causing power interruptions to consumers, straining and damaging electrical assets, causing accidents, injuries and loss of life. Hence, kite flying must be done only with a cotton thread, free from any sharp/metallic/glass components/adhesives/thread strengthening materials. Keep in mind these common safety precautions for kite flying:

- Don't use Sharp Manja made with any other material except Cotton.
- Don't fly near people, especially young children.
- Don't fly close to roads. Landing a kite in a road could cause a serious accident.
- Keep clear of electric power lines, electrical signs, and TV and radio aerials.
- Don't fly your kite in winds stronger than recommended.
- Never fly in stormy weather. Wet lines are conductive!
- Don't let a too young child fly a kite alone. Always accompany them on their first flights. • Watch out for rocks and holes while flying kite.

Learning-Outcome

Students have learnt about to:

- ❖ uplift the quality of the living environment through Ban on Sharp Manja.
- ❖ the coming generations to save environment and encourage to ban on Sharp Manja.

Save Paper, Save Trees and Save the Environment

OBJECTIVES OF THE EVENT

- To create awareness about use of both sides of the paper for printing.
- To create awareness about Golden Rule -"Think before you print".
- To aware about the conservation of trees and prevention of soil fertility.
- To inform students about planting of trees in their surrounding for their aesthetic, economic and protective needs.

REPORT

A Virtual "Save Paper, Save Trees and Save the Environment" was organized by Eco Club of Tecnia Institute of Advanced Studies, Rohini, Delhi on 16 April, 2021. TIAS propagated Eco Club under the aegis of Department of Environment, Government of NCT of Delhi, which is accountable for edifying the overall Environmental Quality and has been entrusted for overall environmental assessment, monitoring, protection and awareness among the people of Delhi. Institute's Eco Clubs is playing an important role in creating environmental awareness amongst the future generation. To create awareness among students TAS Eco Club organized an event "Save Paper, Save Trees and Save the Environment". It was organized by Dr. Kirti Miglani. She informed the gatherings that at International level the consumption of paper is more than 1 million per day and 93% of production for it comes from trees alone which is important raw material for production of it. She also shared that Paper accounts for half of municipal solid waste.

She added that the pulp and paper industry is the third largest consumer of energy and uses more water to produce a ton of product than any other industry and is one of the world's major greenhouse gas emitters. She asked the students to think green and save the environment while saving you some money by using less paper. She told that anything we can do to save paper will help reduce the amount of trash going into landfills, and it will also reduce energy use and pollution associated with manufacturing, transporting, and recycling new paper products. In concluding this event she said that, when we save paper, we reduce the need to cut down trees to make new paper and ultimately we will save our environment.

Awareness Campaign on Save Paper, Save Trees and Save the Environment

Awareness Campaign attend by the Student of TIAS

Learning Outcome

- Students have learnt to use both sides of the paper for printing.
- Students have learnt to the golden rule "Think before you print".
- Students have learnt to conservation of trees and prevention of soil fertility.
- Students have learnt about planting of trees in their surrounding for their aesthetic, economic and protective needs.
