- ❖ To instil environmental and societal resilience in order to attain inclusive sustainable development.
- ❖ To inculcate the sense of proactive action, innovation and teamwork among students towards environment.

REPORT

F.12 (557)/Env/Notification/Manja/2017/2577-82 Dated: 31.12.2020

A Awareness Campaign was organized by Eco Club of Tecnia Institute of Advanced Studies, Rohini , Delhi on 18 January, 2021. TIAS propagated Eco Club under the aegis of Department of Environment, Government of NCT of Delhi, has been dispensed accountable for edifying the overall Environmental Quality in Delhi NCR which has also been entrusted with the overall environmental assessment, monitoring, protection and awareness among the people of Delhi; multi-facets methods is being espoused by the Department for Promotion, Conservation and Preservation of Environment.

Institute's Eco Clubs plays an important role in creating environmental awareness amongst the future generation. It's a platform on which one gets the knowledge about environment. ECO CLUB works to contribute in improving environmental conditions. Tecnia Institute of Advanced Studies actively encourages students and outsiders to ban on sharp manja.

Kite flying by using thread made out of plastic, nylon or similar such synthetic material including popularly known "Chinese thread/manja" or any other thread coated with glass/metallic components causes a lot of injury to human beings and birds which many a times turns out to be fatal. Apart from this, such kite flying threads being non-biodegradable, causes harm to the environment. These also sometimes result in flash-over on the power lines and substations thereby causing power interruptions to consumers, straining and damaging electrical assets, causing accidents, injuries and loss of life. Hence, kite flying must be done only with a cotton thread, free from any sharp/metallic/glass components/adhesives/thread strengthening materials. Keep in mind these common safety precautions for kite flying:

- Don't use Sharp Manja made with any other material except Cotton.
- Don't fly near people, especially young children.
- Don't fly close to roads. Landing a kite in a road could cause a serious accident.
- Keep clear of electric power lines, electrical signs, and TV and radio aerials.
- Don't fly your kite in winds stronger than recommended.
- Never fly in stormy weather. Wet lines are conductive!
- Don't let a too young child fly a kite alone. Always accompany them on their first flights. • Watch out for rocks and holes while flying kite.

Learning-Outcome

- ❖ Students were made aware to uplift the quality of the living environment through Ban on Sharp Manja.
- ❖ This event set an inspiring example for the coming generations to save environment and encourage to ban on Sharp Manja.
