Awareness Quiz Competition ON International Literacy day

Date: 08.09.20

Timing: 12:00 PM Onwards

OBJECTIVES:

- It aims to highlight the importance of literacy to individuals, communities, and society
- To help them in understanding the rich lingual culture of the country.
- To celebrate this day is to promote and propagate literacy.
- To raise awareness and concern for literacy problems that exist within our local communities as well as globally.

This event was organized by NSS Unit-I of Tecnia Institute of Advanced Studies, Rohini. The theme would highlight literacy learning from a lifelong learning perspective and therefore mainly focus on youth and adults. Literacy is a must for every citizen which can eradicate pandemic COVID 19 by spreading awareness. In a nutshell “Education is not preparation for life, education is life itself.” Even in times of global crisis, efforts have been made to find alternative ways to ensure the continuity of learning, including distance learning, often in combination with in-person learning. Access to literacy learning opportunities, however, has not been evenly distributed. The rapid shift to distance learning also highlighted the persistent digital divide in terms of connectivity, infrastructure, and the ability to engage with technology, as well as disparities in other services such as access to electricity, which has limited learning options. The pandemic, however, was a reminder of the critical importance of literacy. Beyond its intrinsic importance as part of the right to education, literacy empowers individuals and improves their lives by expanding their capabilities to choose a kind of life they can value. It is also a driver for sustainable development. Literacy is an integral part of education and lifelong learning premised on humanism as defined by the Sustainable Development Goal 4. Literacy, therefore, is central to a human-centered recovery from the COVID-19 crisis.

“Education is the most powerful weapon which you can use to change the world - Nelson Mandela”

People with no or low literacy skills, who already face multiple disadvantages in their daily lives, have also had limited access to health and preventive information about the coronavirus and online learning opportunities to continue their education. The COVID-19 crisis has shed light on the unpreparedness of infrastructure, education systems, programs, and people for ensuring the continuity of teaching and learning in such a situation. International Literacy Day (ILD) 2020 will explore how literacy can contribute to building a solid foundation for a human-centered recovery, with a special focus on the interplay of literacy and digital skills required by non-literate youth and adults. It will also explore what makes technology-enabled literacy learning inclusive and meaningful to leave no one behind. By doing so, ILD 2020 will be an opportunity to reimagine future literacy teaching and learning, within and beyond the context of the pandemic.

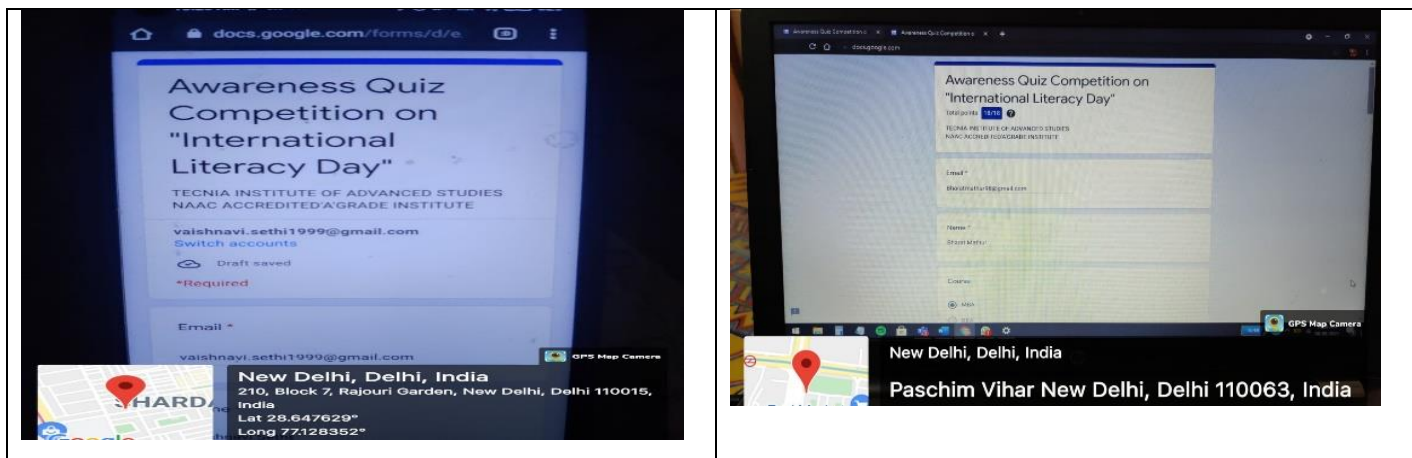

Awareness Quiz was conducted by NSS, 55 students participated from all the respective departments of TIAS on the online platform through Google forms. All the students who participated in the above-mentioned event have been distributed E Certificate through their Emails. It was observed that all the participants were keen to engage in such sought of activities. it provides different opportunities in their interests other than academic routine-based activities. The 8th of September was proclaimed International Literacy Day by UNESCO in 1966 to remind the international community of the importance of literacy for individuals, communities and societies, and the need for intensified efforts towards more literate societies. The issue of literacy is a key component of the UN's Sustainable Development Goals and the UN's 2030 Agenda for Sustainable Development.

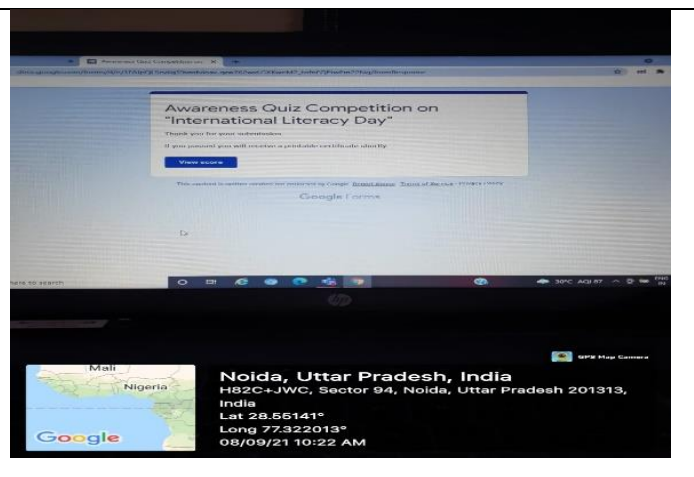

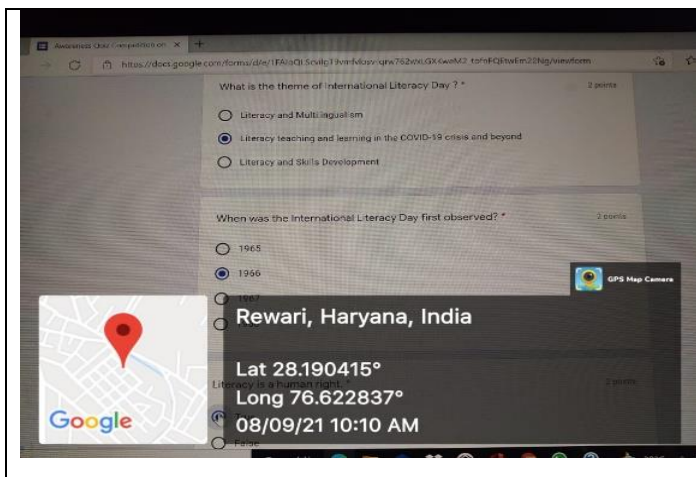

LEARNING OUTCOMES:

- It raises awareness about the importance of literacy as a matter of human rights and dignity across the world.
- It focuses on how literacy can help in building a strong foundation for human-centered recovery.
- Students demonstrated a sense of pride in the languages of their country.
