Debate Competition on Noise pollution was Organized in Tecnia Insitute of advanced studies under eco club in charge –Ms.Sania Kukkar , Assistant Professor- BCA, actions to improve the environment. A Group of students Volunteers from various programs have participated in it.

Sound that is unwanted or disrupts one’s quality of life is called as noise. When there is lot of noise in the environment, it is termed as noise pollution. Sound becomes undesirable when it disturbs the normal activities such as working, sleeping, and during conversations. It is an underrated environmental problem because of the fact that we can’t see, smell, or taste it. World Health Organization stated that “Noise must be recognized as a major threat to human well-being”

To fight with these problems and spreading awareness about the same, Tecnia Eco club spearheads the message on “Measures to control Noise pollution” through Workshop involving the students of TECNIA Institute of advanced studies

Learning Outcome:

- Students have learnt about measures to control Noise pollution
- Students have learnt about Noise pollution affects the health of all living beings.
- Students have learnt about Prohibiting the carrying of appliances likely to cause annoyance or danger.
