Dr. Sheenu Arora; Program Officer-RRC & Coordinator NSS
Ms Vaishali Prasad, Program Officer-NSS

Objectives

1. To address the knowledge, attitude and behaviour of the youth in the interrelated areas of HIV & AIDS.
2. To spread awareness on lacked details about the HIV/AIDS disease which advocates the need of properly formulated.
3. To create awareness about HIV and related issues.

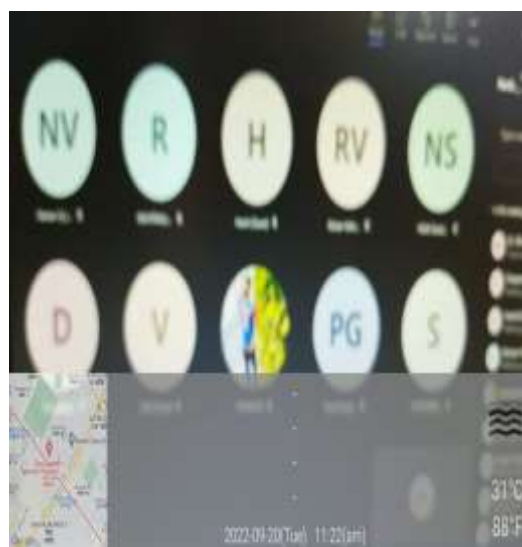

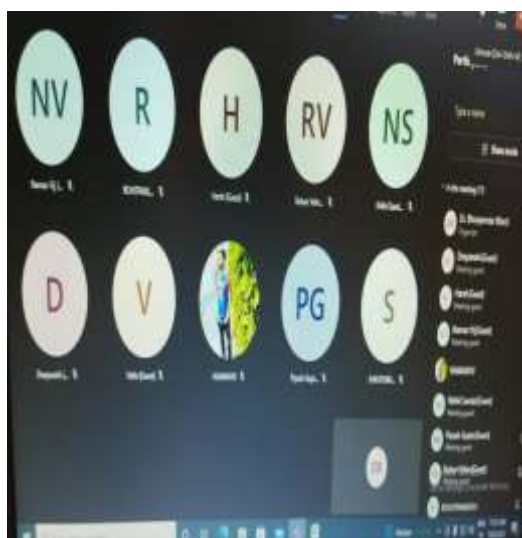

REPORT

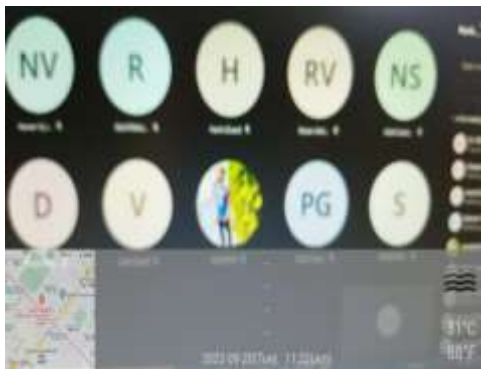

Red Ribbon Club organized **Inter College Debate Competition to spread awareness about HIV-AIDS** and to know the thoughts, knowledge of student on HIV-AIDS disease and also draws attention to the issues faced by the youth all across the world.

India having a large population with low literacy levels leading to a low level of awareness of HIV/AIDS, the disease is posing an alarming threat on the public health scenario. At the same time, discussing sex has been a taboo in the Indian societal set-up. Adolescence is shrouded in myths and misconceptions about sexual health and sexuality. With the influence of infotainment media and the breakdown of traditional family structures, sexual behaviour among adolescents is in lux. In the absence of any organized institution for imparting sex education, young people tend to learn about sexual and reproductive health from unauthorized and unreliable sources resulting in perpetuation of myths and misconceptions about puberty, masturbation, night emissions, sexual intercourse, safe sex, reproductive health, sexually transmitted diseases (STDs), etc.

The program was started by Dr. Sheenu Arora, program officer RRC, TIAS who spoke on the HIV-AIDS and explained the importance of World AIDS Day. She also elaborates the current situation of India in HIV-AIDS cases and how the challenge lies in developing programme to induce behavioural changes among the young as well as the adult population to create the awareness.

The topic of inter-debate competition : the debate over isolation as a measure of personal control. In the debate over HIV/AIDS, we discuss the issue of personal control measures, including isolation and detention, should be addressed critically. Students debated on measure of personal control must be linked to fully implemented, positive programmes in education and counselling within a coherent strategy for which there is no coercitive substitute. Debate competition also included **universal precautions**; protective barriers reduce the risk of exposure to blood, body fluids containing visible blood, and other fluids to which universal precautions apply. Examples of protective barriers include gloves, gowns, masks, and protective eyewear.

Students participate in Inter-debate Competition

Shruti of BBA 5th EB got 1st position in inter debate competition on HIV - AID'S.

Learning Outcomes:-

Students have learnt about :

1. Students were made aware about the HIV- AID's
2. Students got various kind of information about HIV-AID's encouraged to support all the individuals who are suffering from HIV- AID's.
3. This event set an example for the coming generations to know about the HIV- AID's
