REPORT

Event : Global road safety week
Topic : To create awareness about road safety measures.
Date : MAY 13th-17th, 2022
Timing : 10am Onwards
Venue : TIAS Campus
Convener : Ms. Vaishali Prasad, NSS- Nodal Officer
:Dr Sheenu Arora, NSS- Program Coordinator
Beneficiary :BBA, BA (J&MC), MBA, BCA

OBJECTIVES:

- Teach others about important road safety habits, like always wearing seat belts, using helmets, sticking to speed limits, and not texting while driving.
- Encourage your friends, classmates, and community members to participate in road safety activities and take responsibility for their own safety.
- Help people understand existing road safety laws and why it's important to follow them, as well as how they can help make roads safer.

During Global Road Safety Week, our NSS students undertook a series of impactful activities aimed at raising awareness and promoting safer road practices in our community. We kicked off the week by hosting engaging workshops and informative talks to help people understand the critical importance of road safety. We emphasized essential habits such as wearing seat belts, using helmets, following speed limits, and staying off mobile phones while driving.

To make the message even more effective, we organized lively awareness events like rallies and street plays that drew in community members and sparked conversations about road safety. We also created and distributed easy-to-understand flyers, posters, and pamphlets, which provided valuable information on road safety rules and emergency procedures.

Our collaboration with local traffic authorities proved invaluable. By working closely with the traffic police and road safety organizations, we gained insights into their efforts and supported their initiatives. We also conducted surveys to gauge the community's knowledge of road safety, helping us identify key areas where more education was needed.

Practical demonstrations were another key part of our activities. We showed community members how to handle emergency situations, including first aid for accidents and safe driving techniques. By encouraging participation from students and local residents, we fostered a sense of shared responsibility for road safety.

To measure our impact, we collected feedback and observed the outcomes of our activities. This helped us understand what strategies worked well and where we could make improvements. Finally, we made an effort to explain existing road safety laws and policies, advocating for their adherence to help make our roads safer for everyone.

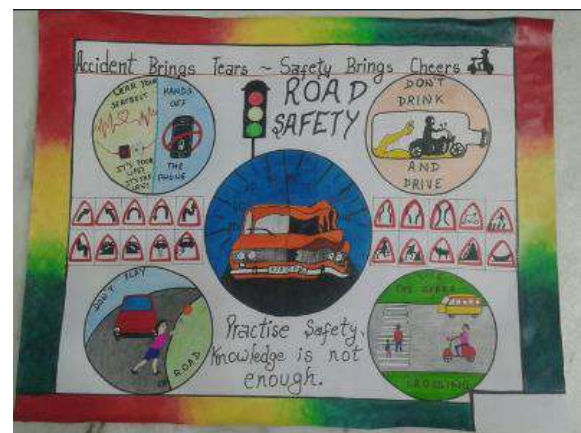

Overall, the week was a great success, with significant engagement from the community and a noticeable increase in awareness about the importance of road safety.

Programme Officer, NSS (SFU)
Tecnia Institute of Advanced Studies
Madhuban Chowk, Rohini, Delhi -85

LEARNING OUTCOMES:

- Students learned how crucial it is to raise awareness about road safety and how effective community events and social media can be in spreading this message.
- Students gained a better understanding of essential road safety practices, like wearing seat belts and helmets, and how important it is to follow traffic rules.
- Overall, Students developed a stronger sense of responsibility for road safety, both for ourselves and for encouraging safer practices within our community.
