**Report: Description in (min 250 to max 800 words)\***

On occasion of World Environment Day, NSS cell, Tecnia Institute of Advanced Studies, Rohini organized tree plantation drive and Painting Competition on 4th June, 2022. The theme of World Environment Day 2022 was “Only One Earth” which draws our attention towards playing our role effectively while living in perfect harmony with nature - without proving a burden on it. On this day the students have planted the saplings in the institute also at various places in the society

The World Environment Day 2022 global campaign #OnlyOneEarth calls for transformative changes to policies and choices to enable cleaner, greener, and sustainable living in harmony with nature. It will focus on the need to live sustainably in harmony with nature, and our possibilities for shifting to a greener lifestyle through both policies and individual choices. “Only One Earth” was the motto for the 1972 Stockholm Conference. 50 years on, the motto is as pertinent as ever – this planet is our only home, and humanity must

	<p>safeguard its finite resources.</p> <p>The year 2022 is a historic milestone for the United Nations Environment Programme (UNEP) and the global environmental community. It marks the 50th anniversary of the establishment of UNEP as an outcome of the Stockholm Conference. It also coincides with the high-level Stockholm+50 international meeting. These emblematic events serve as an opportunity for the international community to strengthen cooperation and show leadership in the transformation towards a more sustainable society.</p> <p>John Keats once said “The poetry of the earth is never dead”, students of Tecnia Institute of advanced studies inculcate this perspective and in order to save earth from global warming and human deeds like a forestation students planted trees in their campus area and the surroundings.</p> <p>Students brought different types of saplings and planted them in the campus in the pot and also planted at Rohini District park and at their home. Plants are an important part of nature and for survival also. The ability of plants to control pollution and rejuvenate nature teaches us to plant more trees.</p> <p>Ms Vaishali Prasad, NSS- Nodal Officer of the event said “We get oxygen and other components from nature which are necessary to survive so we should celebrate and thank mother earth and nature to give us so many things, it’s our duty to at least plant trees in return and maintain sustainable development for the upcoming generations.</p> <p>The special invitees of this event were Dr. Ajay Kumar (Director TIAS) and Ms Vaishali Prasad (NSS- Nodal Officer), all the Departmental Heads with the respective faculty members of TIAS.</p>
