Subject: SEEK- Self Directed Emotional Learning for Empathy and Kindness” for developing social emotional learning skills

To: <directortias@tecnia.in>

Respected Sir/Madam,

AICTE, in its commitment to deliver quality and holistic education, has joined hands and signed (MoU) with UNESCO Mahatma Gandhi Institute of Education for Peace and Sustainable Development. UNESCO MGIEP is a category 1 UNESCO research institute in education that focuses on achieving the UN Sustainable Development Goal towards education for building peaceful and sustainable societies across the world. The objective of this collaboration is to equip the youth with socio- emotional learning and critical thinking skills to deal with challenging situations and guide educators on how to help young people become resilient future leaders through MGIEP’s SEEK Course (<https://mgiep.unesco.org/seek>).

The course is hosted on the UNESCO MGIEP Framers Space Online learning platform (fully General Data Protection Regulation (GDPR) compliant for data privacy). This course trains the youth on 10 skills- skills in self-regulation, self-compassion, compassion for others, and engagement with complex systems. SEEK cultivates skills to calm body and mind, brings focus to students and staff in their respective work, dealing with peers, seniors, leaders, stakeholders, and their families. The course takes 30 hours to complete and MGIEP provides learner support through an online learners' community and monthly Master Classes facilitated by qualified, experienced trainers. Learners receive a globally recognized Certificate from UNESCO MGIEP. The course on 21st century emotional intelligence skill is science-based and will contribute to fulfilling the NEP-2020 goals of imparting social and emotional learning to create engaged global citizens. The policy also recommends that higher Education institutions need to provide socio-emotional and academic support and mentoring through suitable counselling and mentoring programs" Looking at the objectives of this course, you are requested to create awareness among your faculty members and students as developing emotional intelligence skill is critical to leading more fulfilling and successful lives.
