Report - Street Play on "Adoption Bhi Ek Option"

Title of Activity*	Outreach Activity - Street Play on "Adoption Bhi Ek Option"
Values	Awareness of the society on Adoption
Learning Outcomes	<ul style="list-style-type: none"> • As a group we realised that during the time we were preparing our skit, we ourselves were not very open to the idea of Adoption until we researched and saw multiple cases. This helped us realised the benefits and happiness that adoption can bring in families. • As we realised this and performed the final skit in-front of masses, we not only felt empowered by the idea of spreading awareness about this important issue but also felt connected with the same. This helped us in spreading the word in our families, our near and dear ones and in Society because we believe "that bringing change starts from your home itself". • In this process we got aware about the various schemes initiated by the government such as and we also learnt about the various adoption centres within delhi with their procedures and how they work. • Overall being a part of Street Play, each one of us found our voice and gain the confidence to bring the change through the power of literacy. • Awareness about Adoption as Government programmes and initiative was spread among the society. • Motivated society in matters like Complexity, Leadership, The individual, Benefit, Adopter focus, Networks, Learning.

Mridang- Dramatics Society team members along with Dr. Ajay Rathore, Director TIAS and Ms. Sonia Batra, Cultural Club-in charge.

Report

The Students of **Mridang Dramatics Society** of **Tecnia Institute of Advanced Studies** performed a Street Play on the topic "**Adoption Bhi Ek Option**" on **31st March 2023**.

Our Dramatics Club tries to address various social causes by understanding the dynamics and nuances of the world around us, by observing the grassroots issues closely and at other times, by imagining and creating a utopian world order as an alternative. An event organized the collaboration with Mridang Dramatics Club has created an awareness as 'Adoption' offers children who are vulnerable the chance to reach their potential in a stable, loving and permanent home.

It is one of the most selfless and rewarding things a person or couple could do in their life, and there are many reasons people choose to do it.

Why should People Adopt?

Adoptive parents come from many different backgrounds and have varied reasons for adoption.

Some common reasons to choose adoption include:

1. The adoptive couple has struggled with infertility and cannot safely carry a child on their own to term.
 The adoptive parent is single and is ready to start a family
 The adoptive parents are a same-sex couple who want to raise a child together
 The Benefits of Adopting a Child

While many adoptive parents choose adoption as a practical means to start their family, the effects of adoption are often more profound and rewarding than they ever could have imagined.

•Adoption benefits families in countless ways:

A. Adoption gives hopeful parents the opportunity to raise a child they wouldn't have otherwise for couples struggling with infertility; adoption is a guaranteed way to add a child to their family, without the emotional and financial risk involved in IVF treatments.

B. Adoption allows couples and single adults to share their life with a child and enjoy the unique experience of parenthood

C. Adoption builds rewarding, meaningful relationships between adoptive families and birth parents

D. Adoption provides loving, stable homes to children who need them.
