	This FDP was intended to train participants with the different libraries of Python. The FDP was very well-organized and informative. The instructor was clear and concise in his explanations, and he was always available to answer questions. • ER P.C. Pandey briefed us about the Python. He explained Python is a powerful and versatile language that can be used for a wide variety of tasks. • Python is easy to learn and use, even for experienced programmers. • There is a large and active community of Python developers who are always willing to help. • Python is a great choice for web development, data science, and machine learning. His teaching style was clear and engaging. He was able to explain complex concepts in a way that was easy to understand. He also made sure to provide plenty of opportunities for hands-on practice. A significant portion of the FDP was dedicated to real-world problem solving. The resource person presented a variety of case studies that showed how Python could be used to solve real-world problems. The FDP also included a number of hands-on exercises. Participants were given the opportunity to apply the concepts they learned to real-world problems. The FDP was attended by 12 participants
