Report: Description in (min 250 to max 800 words)*

On March 25, 2023, the Unnat Bharat Abhiyan Cell of the Tecnia Institute of Advanced Studies, New Delhi, organised a baseline household survey there. The Unnat Bharat Abhiyan Cell's survey was taken part in by a group of ten students from the Tecnia Institute of Advanced Studies. The survey has given the students a chance to learn about the challenges of rural living and the various programmes and schemes they can take advantage of. The UBA team was quite aware during the survey that the employment issues and open drainage system is a severe problem, and that the government must do more. The villager's cooperation was also greatly valued because they gave all the responses in a relaxed manner. Overall, the baseline survey programme was a big success, and the students learned a lot from it.
