Report Submitted by Convener (write faculty coordinator name)	<p style="text-align: center;">REPORT (Additional Information)</p> <p>Red Ribbon Club (Delhi State AIDS Control Society) organized Red Run (5km Awareness Run to Fight Against HIV/AIDS) and to know the thoughts, knowledge of student on HIV/AIDS disease and also draws attention to the issues faced by the youth all across the world.</p> <p>India having a large population with low literacy levels leading to a low level of awareness of HIV/AIDS, the disease is posing an alarming threat on the public health scenario. At the same time, discussing sex has been a taboo in the Indian societal set-up. Adolescence is shrouded in myths and misconceptions about sexual health and sexuality. With the influence of infotainment media and the breakdown of traditional family structures, sexual behaviour among adolescents is in lux. In the absence of any organized institution for imparting sex education, young people tend to learn about sexual and reproductive health from unauthorized and unreliable sources resulting in perpetuation of myths and misconceptions about puberty, masturbation, night emissions, sexual intercourse, safe sex, reproductive health, sexually transmitted diseases (STDs), etc.</p> <p>The program was started by DSACS, project officer RRC, who spoke on the HIV/AIDS and explained the importance of World AIDS Day. He also elaborates the current situation of India in HIV-AIDs cases and how the challenge lies in developing programme to induce behavioural changes among the young as well as the adult population to create the awareness.</p> <p>Dr. Sheenu Arora, NSS-Programme Coordinator, Red Ribbon Club, Programme Officer</p>
