The screenshot shows the British Council Library website for India. At the top, there's a navigation bar with 'Library' selected. Below it, a search bar is visible with a dropdown menu set to 'All libraries'. A featured book 'Indian Takeaway: A Very British Story' by Hardeep Singh Kohli is prominently displayed. To the right, a sidebar highlights library services, including access to e-books, e-zines, e-journals, e-movies, and over 5,00,000 paperback copies. A 'JOIN NOW' button is also present in the sidebar.

TECNIA LIBRARY is also the Member of British Council Library. British Council Library in New Delhi is the headquarters of the British Council operations in India. The current premises were designed by the renowned Indian architect Charles Correa and opened in 1993. Situated just off Connaught Circus, the centre of New Delhi, they are a landmark in the city. The Delhi office acts as a hub for the development programmes and events in arts, English language, education, science and technology and human rights. These events take place in major cities all over India.

In Delhi British Council we have recently opened a new-look library with online services providing access to UK electronic databases, journals and directories, an English Zone to help people improve their languages skills, an online learning zone to enable people to obtain a UK degree through flexible study and a Children's Library. Other services in Delhi include a busy and popular English language teaching centre which provides a range of courses in English language for learners of all ages and all levels, as well as running an examinations service (both English and professional) and Education UK information service.

The library has unique collection of books on India covers the period from the 17th century to 1947. The Collection includes translations of original Persian works relating to Mogul history and British works on Indian history, archaeology, philosophy, religion, customs and folklore and the arts and sciences, biography and literature. The sections on Biological Sciences depict epic contributions of British scientists, doctors and naturalists who recorded for the first time the different species of the Indian flora and fauna.
