Plastic Should be banned

Plastic bags are easily available everywhere and are widely used. In particular, it is very popular in grocery stores and proves to be very helpful in bringing groceries. It is available in many sizes, with it is also economical and very easy

Riya Gupta, BBA, 3rd Semester, Morning Shift

Plastic Bags should be Banned.

Today when we go shopping, we will see a lot of people carrying their shopping bags made of plastic. Plastic bags are really convenient for all of us to carry things we have bought. In contrast, there are many disadvantages of using plastic bags. If you know that plastic bags have negative impacts for our environment, I am sure that

Snehil Wadhwa, BA(JMC), 3rd Semester, Morning Shift

The club sensitizes the students to discover new environmental issues and the actions required to mitigate them.

Awareness was spread to the masses regarding plastic free life and suggesting usage of alternate means like jute bags, copper bottles, eco-friendly files and folders, eco-friendly food boxes etc. Usage of Plastics should be stopped in canteens, shopping complexes in the institution premises and hostel. And awareness was spread to put a ban on non-biodegradable plastic items in the institution. Various ideas were given to carry out plastic free life , so the plastic free life can be made. More and more alternative solutions like cloth bags, covers need to be made. Eco Club provides an opportunity to help create awareness, build attitudes and enable students to take up activities and sensitivity among individuals and social groups to the total environment and its allied problems; and to Impart knowledge to help individuals and social groups gain a variety of experiences in and acquire a basic understanding of the environment. Eco Club member spread the information among the students and public at large about harmful effects of plastic.

Learning Outcome

- ❖ Students were encouraged for proper maintenance and preservation of environment.
- ❖ Students were made aware to uplift the quality of the living environment through Ban Plastic Use.
- ❖ This event set an inspiring example for the coming generations to save environment and encourage Plastic Free Life in the campus.

OBJECTIVES OF THE EVENT:

- To create awareness and spread the message of saving our planet- 'Protecting our environment is the need of the hour.'
- To help nature and mother earth to get its natural beauty and components back.
- To help students understand and remain committed towards cleanliness and devote time for the same.
- To inspire students for providing these services to society.

REPORT

A plantation drive was organized by Tecnia Institute of Advanced Studies, Rohini area of Delhi on 10th August 2021. Ms. Sania Kukkar organized a meeting on 10th August, 2021. The meeting started with the introduction of Plantation Drive, Cleanliness Drive. John Keats once said "The poetry of the earth is never dead", students of Tecnia Institute of advanced studies inculcate this perspective and in order to save earth from global warming and human deeds like afforestation students planted trees in their campus area and the surroundings.

Students brought different types of saplings and planted. Plants are an important part of nature and for survival also. The ability of plants to control pollution and rejuvenate nature teaches us to plant more trees. Dr. Kirti Miglani convener of the event said "We get oxygen and other components from nature which are necessary to survive so we should celebrate and thank mother earth and nature to give us so many things, it's our duty to at least plant trees in return and maintain sustainable development for the upcoming generations and also discussed about rules and regulations related to an event.

The special invitees of this event were Dr. Ajay Kumar (Director TIAS), Dr. Sonam (Incharge Students Welfare) and all the Departmental Heads with the respective faculty members of TIAS. He told about the importance of cleanliness and motivated students to participate in various activities related to Plantation and Cleanliness.

Webinar on International Mangrove Day

OBJECTIVES OF THE EVENT:

- To enhance awareness of the value of mangroves;
- To demonstrate approaches to successful mangrove restoration;
- To prevent further destruction of mangroves; and
- To develop alternative livelihoods.

REPORT

With Reference to communication received from department of delhi secretariat dated 25 aug,2021 to celebrate Azadi ka Amurat Mahostav

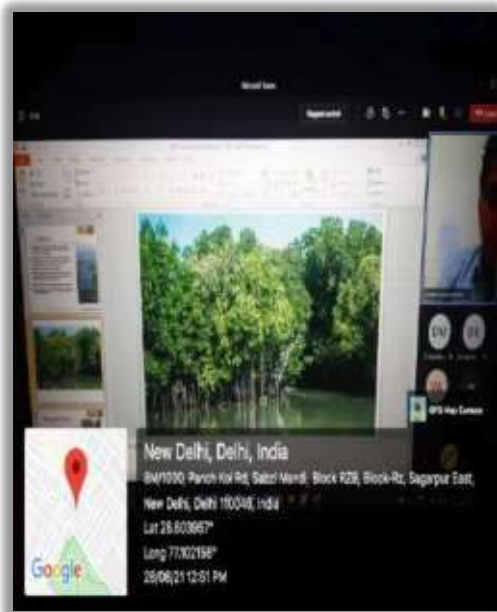

The event started with the address of Dr.Ajay Kumar , Director Tias to the special guest . He mentioned that it was a great initiative taken by the Eco club of Tecnia Institute of Advanced Studies to make the students aware about such important days and enhance sensitivity among students with respect to issues related with mangrove .

Then T & P head Dr. Nivedita Mishra has given presentation with significance of Mangrove trees. She told the uses and importance of Mangrove for human survival. She mentioned issues happening with the Mangrove trees in India.

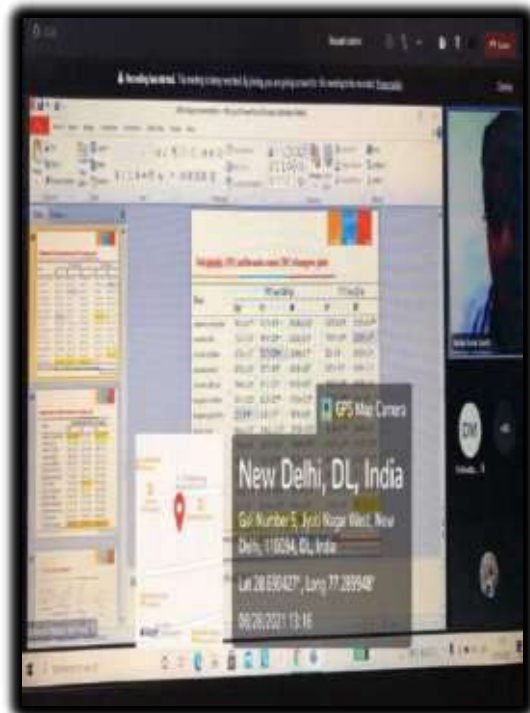

She mentioned the following importance of Mangrove trees.

The chief guest Dr Kundan Kumar in his address enlightened the gathering about the significance of man group stay and mangroves tree in India and around the world. He mentioned some unknown facts and figures about mangroves and the ways it is being used and humiliated. Some of the major points covered during the session were Sundarbans in the Gangetic delta with an area of 2.12 lakh hectares (ha) supports 26 plant species of mangrove with a maximum height of more than 10 metres.

Students Attend the Webinar

Address by Director Sir, TIAS

Vote of thanks by Nodal Officer

He Explain all information in details like As a result, mangroves get depleted to the tune of 2-8 per cent annually at global level; 40 per cent of mangrove forests in West Coast of India have been converted into farmlands and housing colonies over the last three decades.

Some of the mangrove species like *Bruguiera cylindrica* and *Sonneratia acida* are at the verge of extinction. Due to shrimp farming, about 35,000 ha of mangroves have been lost in India.

The traditional rights of coastal communities to use the natural resources in their surrounding natural habitats for their livelihood should be recognised while formulating and implementing regulations and conservation measures on priority basis.

Therefore, while mangrove forests play a major role with more valuable ecological services, scientific management of the same is the need of the hour not only for the wellbeing of mankind but also for coastal biodiversity.

The session ended with a lot of information and a vote of thanks by Ms.Sania Kukkar Incharge of Eco Club.

Learning Outcome:

- Students will be able to Plant more and more trees every day.
- Students will be able to encourage your relatives to do the same.
- Students will be able to stop buying products that are made by destroying the forests and try to ban them.
- Students will be able to Practice the 3R rule- Reduce, Reuse and Recycle to lower the need of raw materials from trees.

- IV. To ensure skills and ability to design, implement and evaluate research on disasters.

REPORT

With Reference to communication received from department of Delhi secretariat dated 25 Aug, 2021 to celebrate Azadi ka Amarat Mahostav

The event started with the acknowledgment by the director to the special guest and organizers of the event. He mentioned that it was a great initiative taken by the Eco club of Tecnia Institute of Advanced Studies to make the students aware about such important days and increase sensitivity in students for such sensitive issues going around the globe. He made the students aware about the National Disaster Reduction. Heath and the special guest for conducting the event and acknowledged the faculty members for their efforts.

Figure 1:-Address by Director ,Tias

Then the training and placement in charge of techniques of Advanced Studies Dr. Nivedita Presented a presentation and made the students aware of the real significance of National Disaster Reduction and why we celebrate this day across the globe. She told the uses and importance of Mangrove for human survival. She mentioned some major importance and some major issues happening with the National Disaster Reduction in India.

She mentioned the following importance of National Disaster Reduction:

Nature-based solutions, such as conserving forests, wetlands and coral reefs, can help communities prepare for, cope with, and recover from disasters, including slow-onset events such as drought. They can also reduce the secondary impacts from non-climate-related disasters such as landslides following an earthquake.

Forests and other vegetation help stabilise slopes and therefore reduce the risk of landslides. Wetlands can help regulate floods. Coastal vegetation and natural features such as sand dunes and mangroves can provide protection from storm surges, strong winds and cyclones. Healthy coral reefs can reduce wave energy during coastal storms.

Then the chief guest Shri Niwas Singh took the command and enlightened the gathering about the National Disaster Reduction and shared Nature-based solutions, such as conserving forests, wetlands and coral reefs, can help communities prepare for, cope with, and recover from disasters, including slow-onset events such as drought. They can also reduce the secondary impacts from non-climate-related disasters such as landslides following an earthquake.

Forests and other vegetation help stabilise slopes and therefore reduce the risk of landslides. Wetlands can help regulate floods. Coastal vegetation and natural features such as sand dunes and mangroves can provide protection from storm surges, strong winds and cyclones. Healthy coral reefs can reduce wave energy during coastal storms.

Tree Plantation Drive

Tree Plantation Drive was Organized in Tectnia Insitutute of advanced studies under eco club Nodal Officer –Ms. Sania Kukkar, Assistant Professor- BCA, actions to inculcate this perspective and in order to save earth from global warming and human deeds like afforestation students planted trees in their campus area and the surroundings.

Students brought different types of saplings and planted them in the campus. Plants are important part of nature and for survival also. The ability of plants to control pollution and rejuvenate nature teaches us to plant more trees. Dr. Sheetal Badesra convener of the event said "We get oxygen and other components from nature which are necessary to survive so we should celebrate and thank mother earth and nature to give us so many things, its our duty to at least plant trees in return and maintain sustainable development for the upcoming generations.

A Group of students Volunteers from various programs have participated in it .

Webinar on world wetlands day

OBJECTIVES OF THE EVENT:

- To aims to raise global awareness about the vital role of wetlands for people and planet.
- To raise awareness about the importance of wetlands and the need to preserve them.
- To aims to highlight the importance of actions that ensure that wetlands are conserved and sustainably used.

REPORT

With Reference to communication received from department of Delhi secretariat dated 25 Aug, 2021 to celebrate Azadi ka Amurat Mahostav

The event started with the acknowledgment by the director to the special guest and organizers of the event. He mentioned that it was a great initiative taken by the Eco club of Tecnia Institute of Advanced Studies to make the students aware about such important days and increase sensitivity in students for such sensitive issues going around the globe. He made the students aware about the world wetland day . Heath and the special guest for conducting the event and acknowledged the faculty members for their efforts.

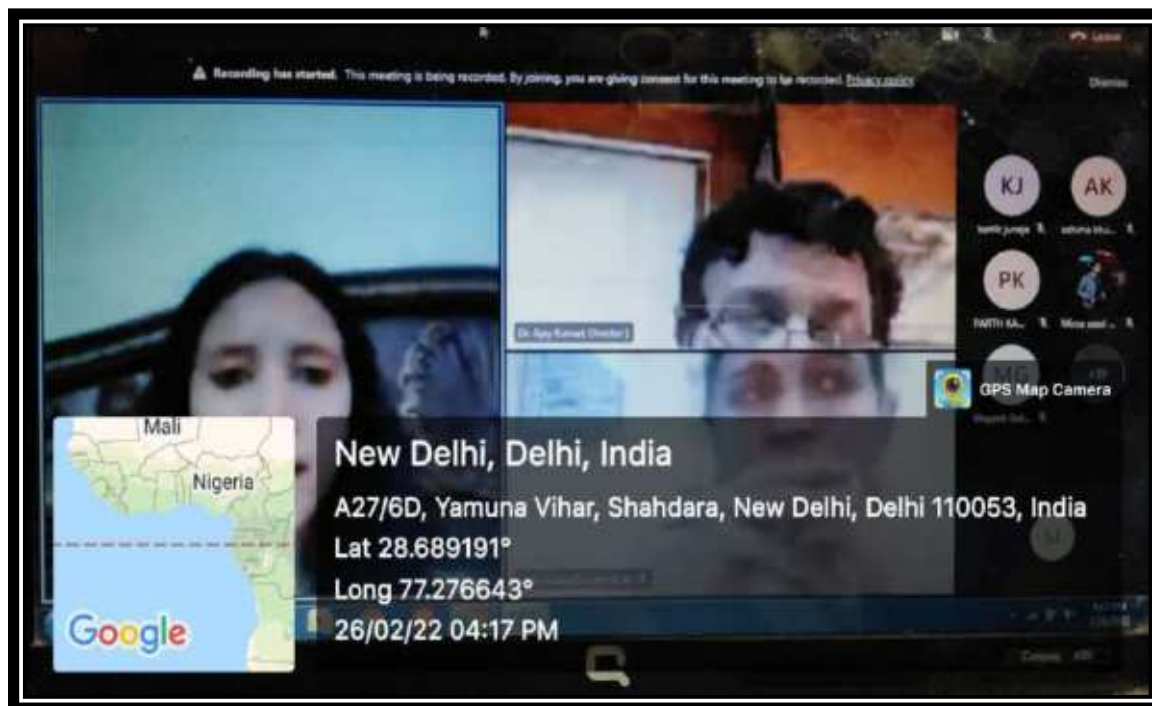

Figure 1:-Address by Director, Tias

Then the training and placement in charge of techniques of Advanced Studies Dr. Nivedita made the students aware of the real significance of world wetland day and why we celebrate this day across the globe. She told the uses and importance of wetland for human survival. She mentioned the following importance of world wetland day :

Wetlands are important as they are among the most productive ecosystems in the world like the rain forests. The wetlands have numerous benefits such as water purification, groundwater replenishment, water storage and flood control, stabilization of shorelines and storm protection,

processing of carbon fixation, decomposition and sequestration and comprise other nutrients and pollutants and are home to various plant and animal species..

Then the chief guest Dr.Amit Kumar Dwivedi took the command and enlightened the gathering about the world wetland day and shared Nature-based solutions, such as The day calls for more human, financial and political capital investment to preserve the world’s wetlands and save them from disappearing and restore those that have been degraded..

Wetlands are land flooded by water, either permanently or seasonally. Wetlands are considered to be among the most biologically diverse of all ecosystems, as the flooding results in the prevailing of oxygen-free process and create an ideal condition for the growth of highlight adapted plants and species. They are home to a wide range of plant and animal species and play a critical role in maintaining natural cycles. The wetlands are primary source of freshwater for many, as they purify and filter the waste from the region and regulate the water supply.

The world's largest wetlands include the Amazon River basin, West Siberian Plain, Sundarbans in Ganges-Bramhaputra Delta in India and Pantanal in South America.
