Expenses on travel and communication for business purposes are paid on actual.

**About Company:-**

SecureNow Insurance Broker Pvt. Ltd. ("SecureNow") is an insurance broker focused on selling commercial insurances to MSMEs. It was co-founded by Abhishek Bondia and Kapil Mehta in 2011 and has fast become the go-to site for small businesses buying insurance. It is the one-stop provider for MSMEs for all their insurance requirements. This means that the company sells commercial products including group health insurance, property, marine and liability covers. It also handles claims and insurance services on behalf of clients.

SecureNow, an insurance broker, has built an insurtech platform where MSMEs can transact in commercial insurances. The company sells a wide range of commercial insurances such as group health insurance, property and liability covers. It handles claims and all insurance related services, such as endorsements, for its clients.

Small businesses bravely face material risk every day. Some of these risks can wipe out complete businesses. As such MSMEs need insurance most but struggle for good terms and services because they do not have market leverage. On SecureNow's platform MSMEs can buy best-in-class insurances in a friction less way.

These insurances provide much needed financial security and contribute to the businesses' self-reliance. We have also, over the years, successfully handled thousands of claims for MSMEs.

SecureNow has raised US\$ 6 million from Elevar, Apis and Charan Singh, founder of SelectQuote Inc. Our investors have deep knowledge of insurance and insurtech and are extremely selective in making investments. The funds raised will be invested into technology, deepening MSME networks and marketing. SecureNow Insurance Broker Pvt. Ltd.
