Report

Group Discussion on Economic Challenges and Opportunities in India

Session 2023-2024

Activity Name : Group Discussion On Economic Challenges and Opportunities In India.

Subject : Contemporary India: Overview 103

Faculty in Charge : Ms Adity Agrawal, Assistant Professor BA (J&MC), TIAS

Participants : Students of 1st Semester Morning A (1st Year)

Objectives:

- To engage participants in an open discussion on economic challenges and opportunities, fostering a collaborative exploration of diverse perspectives and potential solutions.
- To deepen participants' understanding of the complexities of economic dynamics and enhance their critical thinking skills in addressing contemporary economic issues.

Execution of the activity:

It was required of the BA (JMC) batch 2023–24 first-year students to open discussions play a crucial role in cultivating a culture of inclusivity, diverse perspectives, and collaborative problem-solving. This participative learning report aims to explore the significance of open discussions as a powerful tool for learning, understanding, and building connections within various contexts. The moderator introduced the topic of economic challenges and opportunities in India and provided a brief overview of the purpose of the discussion and the ground rules. There was a Opening Statements of around 10 minutes and participants were invited to share their initial thoughts, concerns, or questions about the topic. The moderator presented key data points, statistics, and case studies relevant to the chosen topic and encouraged participants to ask clarifying questions and engage critically with the information presented. There was an open discussion where participants shared their insights, analyses, and perspectives on the economic challenges and opportunities in India.

Shivani
HOD
BA(JMC)-TIAS

Learning Outcomes: The dynamic and interactive environment, fostering a deeper understanding of economic complexities and encouraging participants to actively contribute to solutions. The learning outcomes emphasize the development of critical thinking, effective communication, and collaborative problem-solving skills, ultimately preparing participants for informed and engaged citizenship in the economic landscape. The following are the outcomes that the students would learn:

- Participants gained a deeper understanding of economic challenges and opportunities through exposure to diverse perspectives and expert insights.
- Engaging in open discussions promoted critical thinking by encouraging participants to analyze data, question assumptions, and synthesize information.
- Through group discussions and the synthesis of ideas, participants honed their collaborative problem-solving skills in addressing complex economic issues.
