A seminar was organized on 24.04.2023 by Training and Placement Cell under the ambit of Capability Enhancement Scheme on the topic 'Verbal and Non-Verbal Reasoning' BCA 2nd Year Students The resource person for the seminar were Mr. Amit Poddar, MBA from India Institute of planning & Management, Senior Regional Head T.I.M.E.

Verbal and Non-Verbal reasoning are more a demonstration of a student's cognitive skills than of his/her acquired knowledge. Testing a child's reasoning skills helps to assess students' ability to think critically, measure their aptitude, assess their capacity for information processing and problem solving. In short, it encompasses your ability to learn and process information in words and images. Verbal Reasoning measures students' ability to use language to identify and solve problems. It goes beyond formal literacy by testing wider reasoning and cognitive abilities. For example, children may be asked to identify words within words, solve basic word puzzles or identify patterns in words and sentences during tests. Other examples include finding one letter to complete two words, or spotting the odd word in a group or naming synonyms and antonyms of particular words. Non-Verbal Reasoning deals with images and how we learn by interacting with them. Interestingly, people largely think in images, thus the ability to respond to and interact with visual imagery can be a good test for abstract thinking, creativity and complex problem solving abilities amongst others. Examples of tests students must complete include identifying odd shapes in groups, identifying inverted images, creating shapes with material, finding identical shapes in groups or identifying sequences in image arrangements. Earlier Dr. Nivedita welcomed the speaker in the seminar and introduced to the students and described the objective of the seminar. The one hour session was very interactive and was well received by the students. The seminar ended with a vote of thanks by Dr. Nivedita.
