**Report: Description in (min 250 to max 800 words)\***

A session on Trending Technologies and Skill Set was organized by Training and Placement Cell,

	<p>TIAS on 15.03.2024 for the students of MCA 1st Year program under the ambit of Capability Enhanced Program. The speaker was Mr Karan Babbar, Assistant TPO, TIAS, as Resource Person and Dr. Nivedita, Head Training and Placement Cell, TIAS.</p> <p>The resource person Mr Karan Babbar stated that gaining knowledge of the latest and most impactful technologies, such as artificial intelligence (AI), machine learning (ML), cloud computing, cybersecurity, blockchain, and the Internet of Things (IoT). Furthermore, proficiency in the specific tools and platforms that power these technologies is crucial. This could involve programming languages like Python or Java, software applications for data analysis or cloud services. A growth mindset and the ability to learn new technologies quickly are essential for staying relevant.</p> <p>It is also highlighted that effective communication of technical concepts to both technical and non-technical audiences is a valuable skill. Additionally, it is essential for collaboration within teams and for successfully pitching ideas to stakeholders. The ability to work effectively in teams that leverage trending technologies is another crucial learning outcome.</p> <p>Lastly, the resource person stated that focusing on trending technologies and skill sets for success in the ever-changing technological landscape. By achieving the outlined learning outcomes and adopting a lifelong learning approach, individuals can position themselves for a thriving career in the tech industry.</p>
