Education, Ministry of Education, Govt. of India and is affiliated to Guru Gobind Singh Indraprastha University, Delhi; Recognized under Section 2(f) of UGC Act, 1956 established in the country's capital in the year 1998 as an educational and professional centre, with an aim to provide technical knowledge required for the career development of young generation by way of providing the quality education.

ABOUT CONFERENCE ▶▶

Remember the time before independence...yes, people had different methods of working but the goal was same and the goal was big-the freedom of India.

In this Amrit Kaal we have to come together and work towards another big goal of a VIKSIT BHARAT

- PM Modi at the Red Fort on 15th August 2022

This narrative depicts the journey of New India, wherein we achieved independence in 1947. The attainment of the first trillion took 60 years, specifically in 2006. Subsequently, the second trillion was accomplished in a span of 8 years, in 2014. The third trillion was reached in 2019, after duration of 5 years. Following this trajectory, the fourth trillion was achieved during 2022-23, and the fifth trillion is projected to be attained in 2026-27.

India has made remarkable progress in recent years. Since 2015, India's GDP has surpassed that of several major economies including Russia, Italy, Brazil, France, and the UK, moving from the 10th position to the 5th. It is projected very soon, India will overtake Japan to become the 4th largest economy in the world. Prior to the pandemic, India was the fastest-growing large economy globally, and even after the pandemic, it has continued to demonstrate strong economic growth. Throughout our history since 1947, In June 2021, India's foreign exchange reserves crossed the US$600 billion mark for the first time, now it hovers at $642.63 in March 2024 contributed by investors from 162 different countries. This remarkable achievement represents a global record in FDI.

NEW INDIA:

▶LARGEST DEMOCRACY ON THE PLANET

India is considered one of the youngest and largest democracies in the world. With a significant portion of the global workforce and middle class residing in India, it reflects the country's growing prominence.

▶FOREIGN DIRECT INVESTMENT

A new chapter in India's journey already started on August 15, 2023, marking the start of a 9,000-day period leading up to India's 100th Independence Day on August 15, 2047. This period promises to bring about exciting developments and progress for the nation, heralding a new era for India. Prime Minister Narendra Modi, in a video conference address at Puttaparthi, Andhra Pradesh, emphasized that India's forthcoming 25 years of Independence would be dedicated to fulfilling its duties, referring to it as the "Kartavya Kaal" or the (Era of Responsibilities). The PM expressed India's commitment to prioritizing its responsibilities and named the period leading up to the 100th Anniversary of Independence as the "Kartavya Kaal" or the Era of Responsibilities.

The vision outlined by Prime Minister Narendra Modi for India in 2047 focuses on various aspects of national development and progress and to make

"INDIAN RENAISSANCE"
भारतीय पुनर्जागरण

Its right place in the world order.

With this premise, Tecnia Institute of Advanced Studies is contemplating a National Conference on the topic New India Vision for 2047: Transformational Strategies "For Kartavya Kaal" on 18th MAY 2024, The conference invites research papers, articles, overview, commentary, reports, opinions, suggestions, observance although following thematic aspects of the conference session.

CONFERENCE OUTCOMES: ▶▶

▶India's Path to Global Leadership:

This conference is expected to highlight various ways in which India can become a global leader in terms of national development and progress. Experts and thought leaders will discuss strategies, policies, and initiatives that can contribute to India's rise as a prominent global player.

▶Overcoming Cultural Legacy and Socio-political Challenges:

Participants at the conference will engage in discussions regarding the challenges posed by cultural legacy and socio-political factors in achieving the Vision for India in 2047. They will explore the ways to address these challenges and find effective solutions for inclusive and sustainable development.

▶Future Society and Business Prospects:

The conference will provide a platform to delve into a wide range of future society and business prospects and problems. Experts and stakeholders will share their insights on emerging trends, technological advancements, and disruptive forces that will shape India's future society and business landscape.

▶Sharing of Experience and Research Findings:

The conference will facilitate the exchange of experiences and research findings related to the New India Vision for 2047. Stakeholders from different sectors will present their work, case studies, and best practices, fostering knowledge-sharing and collaboration among participants.

▶Sustainable Development Goals (SDGs) and Managing Challenges:

The conference will emphasize the importance of Sustainable Development Goals (SDGs) in managing the challenges associated with diversity, inclusion, and socio-economic mobility. Participants will explore how the SDGs can serve as a framework for addressing these issuesand achieving sustainable and equitable development in India. Overall, the conference aimed to provide a comprehensive platform for discussions, knowledge sharing, and collaboration among stakeholders to drive India's progress towards becoming a global leader. It will encourage participants to explore innovative solutions, leverage research and experiences, and align efforts with the Sustainable Development Goals to overcome challenges and shape a prosperous future for India.
