Students participating in the anti-fire cracker campaign

Report: Description

The ECO Club of Tecnia Institute of Advanced Studies organized an impactful Slogan Making Competition on November 3rd, 2023, as part of their Anti Fire Cracker Campaign. The event aimed to raise awareness about the harmful effects of firecrackers on the environment and public health, especially during festive seasons.

Students from various departments enthusiastically participated, showcasing their creativity and commitment to environmental conservation. The slogans highlighted the adverse impact of firecrackers, such as air and noise pollution, health hazards, and the distress caused to animals. Messages emphasizing the importance of celebrating festivals in an eco-friendly manner were prominently featured.

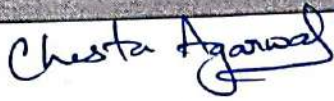

The competition served as a platform for students to express their thoughts and spread the message of sustainability. The winning slogans were selected based on their originality, clarity, and relevance to the theme. These slogans will be displayed around the campus to further reinforce the campaign's message.

The event was a great success, fostering a sense of responsibility and encouraging students to adopt green practices. The ECO Club's initiative underscored the importance of collective action in preserving our environment and promoting a healthier, safer community.
