Tel: 91-11-27555121-24, E-Mail : directortias@tecnia.in, Website: www.tiaspg.tecnia.in

Feedback Analysis (2022-23)

The MBA program received suggestions from students and alumni for practical skill development, leading to the introduction of Certificate Courses in Data Analytics using Excel, Event Marketing, Business Sustainability Management, and Strong Work Ethics. For the BBA program, both students and employers emphasized the need for leadership and communication skills, which has resulted in new Certificate Courses in Leadership Development and Public Speaking. Feedback from the BCA department highlighted a demand for advanced technical expertise, prompting the addition of a Certificate Course in Unsupervised Learning and its Applications. Additionally, the BAJMC program incorporated feedback from students and industry professionals to launch Certificate Courses in Communicative English, Computing Skills, and Data Journalism.

Feedback regarding the alumni support system indicates a need for enhanced alumni involvement in the development of the institute. Alumni, faculty members and employers have expressed a strong interest in contributing to the growth and progress of their alma mater but feel that current avenues for participation are limited. Faculty members and students also see value in increased alumni engagement, suggesting that leveraging their experience and network could drive institutional improvements and provide valuable insights. Strengthening the mechanisms for alumni involvement can foster a more collaborative relationship and harness their expertise to benefit both the institute and its students.

Feedback from faculty members & students highlights a significant concern regarding the cleanliness of the washrooms. They have emphasized that maintaining high standards of hygiene and regular cleaning in these facilities is crucial for creating a comfortable and professional environment. Improved washroom cleanliness would not only enhance the overall campus experience but also reflect positively on the institute's commitment to staff well-being and operational excellence. Addressing this issue promptly will contribute to a more pleasant and respectful workplace for everyone.
