Report: Description in (min 250 to max 800 words)*

The "Art and Craft for Sustainable Living" activity, organized by the Cultural Club of Tecnia Institute of Advanced Studies, was conducted on 15th October, 2023 in Akabar Pur Majra. This event aimed to promote eco-friendly practices through artistic expression. The program was led by an expert, who specializes in eco-friendly crafts, and was supported by internal expert.

The primary focus of the activity was to highlight the importance of sustainability in the field of art and craft. Students learned how to use natural and recycled materials to create beautiful and functional art pieces. The expert guided participants in techniques such as paper crafting, clay modeling with natural resources, and using everyday waste materials to create unique artworks.

The session emphasized key values such as creativity, teamwork, and environmental responsibility. The participants not only developed practical skills but also enhanced their understanding of sustainability and its role in modern-day crafting.

The session included hands-on activities, where students worked in groups to come up with creative solutions to everyday crafting challenges using eco-friendly materials. The outcome was a variety of art and craft pieces made from sustainable resources, showcasing the potential of integrating traditional art techniques with modern environmental consciousness.

The Session concluded with a presentation of the crafted items and an interactive Q&A session. The participants expressed their newfound appreciation for eco-friendly practices and committed to incorporating these principles into their daily lives. This event was a successful step towards promoting sustainability in artistic endeavors.

The activity was promoted through social media, with posts on Instagram and Facebook, highlighting the event's objectives and achievements.
