**Report: Description in (min 250 to max 800 words)\***

Mehak 2024, the annual cultural fest of Sri Aurobindo College, University of Delhi, held on 18th and 19th March 2024, showcased an array of cultural activities, including the much-anticipated Nukkad Natak competition. The street theatre event attracted multiple teams from various institutions, each eager to make a mark with their performances on socially relevant topics. The team led by Dolly Chawla secured 2nd position for their Nukkad Natak performance, which was widely applauded for its creativity and thought-provoking message.

The Nukkad Natak performed by Dolly Chawla's team centered around the theme of environmental degradation, particularly focusing on the detrimental effects of plastic pollution. The team used minimal props, relying heavily on their expressive acting, voice modulation, and audience engagement to drive home the message of environmental consciousness and the need for urgent action. The dialogue was sharp and the performance energetic, evoking strong emotions from the audience.

The team employed clever improvisation techniques, incorporating real-time audience interaction to highlight the community's role in environmental preservation. The performance resonated with the judges and the crowd, as it provided both an entertaining and enlightening experience. Their portrayal of environmental issues through the traditional format of Nukkad Natak not only raised awareness but also inspired collective responsibility among the audience.

The second-place finish was a testament to the team's dedication and passion for using theatre as a medium for social change. The students involved gained valuable insights into the power of performance art in addressing critical global issues and creating a dialogue with the community. The Cultural Society of Sri Aurobindo College successfully organized an event that underscored the importance of social awareness through creative expression, making Mehak 2024 a memorable cultural fest.
