Syllabus of Value Added Course

Certificate Course on Thoughts, ideas and experiences for developed India

COURSE CODE: CCTIED	L:2	T/P:0	CREDITS: 2	TOTAL MARKS:100
----------------------------	------------	--------------	-------------------	------------------------

Course Overview:

This course explores the key factors contributing to the development of a nation, focusing on economic, social, and environmental aspects. Students will learn how technological innovations drive economic growth, enhance quality of life, and boost global competitiveness. The course delves into India's alignment with the Sustainable Development Goals (SDGs), emphasizing sustainability, equality, and social justice. It highlights the importance of inclusivity and equal opportunities in fostering a strong and prosperous society. Additionally, students will understand the role of education, skill development, and good governance in achieving sustainable national progress.

Course Outcomes:

1. Students will gain an understanding of the key factors contributing to a developed nation, including economic, social, and environmental aspects.
2. Students will learn how technological innovations can drive economic growth, improve quality of life, and enhance the competitiveness of India globally.
3. Students will develop an understanding of the SDGs and learn about India's initiatives to achieve these goals, focusing on environmental sustainability, equality, and social justice.
4. Students will understand the significance of inclusivity in development and how ensuring equal opportunities for all citizens contributes to a stronger economy and society.
5. Students will recognize the importance of education and skill development in fostering a knowledgeable workforce capable of supporting a developed economy.
6. Students will understand how good governance, transparent policy-making, and continuous economic reforms are key to a nation's progress and sustainable development.
