OBJECTIVES OF THE EVENT

- To provide an environment for physical development of the students.
- To provide opportunity to the student to show case their talent in sports field.

REPORT

An event "Talk by Specialists" of Fit India Youth Club of Tecnia Institute of Advanced Studies for the implementation of "Fit India Campaign" in Higher Educational Institutions was organized on 30/12/2019 , Monday. In contrast with physical activity, Based on the "Theme: Hygiene and Cleanliness" which is related to the movements that students perform, physical fitness is a set of attributes that students have or achieve. A hygiene audit will provide an insight into how an organization operates in a sustainable manner in terms of hygiene environment to the stakeholders as per the International Standard for Occupational Health and Safety Management Systems (ISOHSMS). If an organization has a hygiene auditing process implemented already, then it should apply environmental context into a clean environment. Environmental audit is a natural management tool and it will become more effective when hygiene audit is added to it. It is an essential requirement to adopt an audit process for a sustained utilization of resources in a hygienic way in both developed and developing countries like India. Hygiene will be of different types such as personal hygiene, environmental hygiene, medical hygiene and public hygiene which are all interrelated between each other in terms of maintaining a hygienic atmosphere to the stakeholders.

A healthy population is the essential component of a country's wealth in terms of political, economic and environmental sustainability. In terms of population growth statistics, India is the fastest populating country to strike the second position in total population cover which is about 138 million and constitutes 17.25% of the total global population (IGBC, 2021; WGBC, 2021). Demographic status of India revealed that if the population increase continues to be at this rate, India is expected to be the most populated country by 2050. Along with the birth rate, social and environmental issues are also increasing and alarming now-a-days. As consequences of over population, 2 social well-being of man and status of quality environment of the country get affected by the developing pressure on food, clothes, housing and other basic necessities, unemployment, loss of standard of living, decrease of forest cover, environmental pollution, energy crisis, ecological degradation and lack of hygienic condition-resulting in the distortion of well-being of a country.

Learning outcome

Students have learnt about

- Tactical and decision making skills on the basis of tactics involved in playing the games
- The strategic skills by involving themselves in the mind game such as chess.

List of Beneficiary -
